Foreword

This new edition of The Druze Heritage: An Annotated Bibliography aims, as did the first, to stimulate interest in the study of Druze history and culture.

Over the last thousand years, the Druze have played an active role in the political, social and cultural development of the Arab East. Indeed, wherever they have lived in the world, they have made significant contributions and maintained a sense of solidarity as well as an attitude of openness towards other communities and cultures. They have also been known for abiding by an ethical code that emphasizes honour, honesty, trust and respect for others.

As shown by this new edition, much has been written about the Druze. Many of these writings have been informative and fair, while others have lacked accuracy, depth or thoroughness.

Other works, by Druze authors, have covered a wide range of subjects in the fields of history, literature and the arts and sciences in general; such studies form an important part of the Druze heritage.

The Druze Heritage Foundation aims to promote the scholarly study of Druze traditions and lifestyle. In order to achieve its goal, the foundation encourages research and publications in areas that are relevant to the history and secular life of the Druze community.

This updated edition comprises 2063 entries- 1138 books and 925 articles- which is most encouraging, and we would like to thank those who participated in providing the foundation with the information regarding these entries. The Druze Heritage Foundation welcomes and will gladly consider adding to future editions of this work, any suggested material that has not yet been covered by this bibliography.

Special thanks are due to Rana Yusuf Khoury who undertook the

revision and expansion of the first edition of this bibliography, and to Professor Kamal Salibi for writing the historical introduction for both editions.

Salim Khaireddine
The Druze Heritage Foundation

Introduction

The story of the Druze begins with the so-called Ka'ina, or 'occurrence': a pivotal conflict which broke out in Cairo in AH 408/AD 1017 among the Isam 'ili devotees of the reigning Fatimid caliph, al-Hakim bi-Amr Allah (AH 386-411/AD 996-1021), and which resulted in the downfall—and subsequent death—of their original leader, Muhammad ibn Isma'il al-Darazi, and his replacement by his chief rival, Hamza ibn 'Ali.

The dispute between Hamza and al-Darazi was over a theological issue; namely, how the living person of al-Hakim manifested the presence of the Godhead, or divine nature (Arabic *lahut*), in the world. Isma'ili gnosticism had traditionally held the Fatimid caliphs to be infallible imams (divinelyappointed guardians of Islam), each of them, in his time, providing a living manifestation of al-'aql al-fa'al, the active intellect, or demiurge; one of the pre-eminent cosmic principles (hudud, singular hadd) recognizable in the Godhead, it is the active intellect which fashions the sensible world in the light of eternal ideas. In a departure from this doctrine, al-Darazi had argued that al-Hakim, unlike his predecessors in the Isma'ili Imamate, was the living embodiment not of al- 'aal al-fa'al, but of al- 'aal al-kulli-the supreme cosmic intellect, which was the highest of the hudud. Hamza, by contrast, exalted al-Hakim above the rank of a mere imam, recognizing in his person the living manifestation of no particular hadd of the divine nature, but of the ultimate One, the transcendental Godhead which had created the supreme cosmic intellect and which possessed an inscrutable nature beyond human understanding. Hence, the name al-Muwahhidun (from tawhid, meaning the 'confession of the Oneness' of God), by which the Druze (al-Duruz, o Durziyya, commonly believed to have been so named by their detractors after the discredited al-Darazi) have historically preferred to be known. When al-Hakim disappeared late in AH 411/AD 1021, his devotees maintained that he had withdrawn from the world and would ultimately return to manifest his full power and established the millennium, at which time those Druze who had remained steadfast in their faith would prevail over all mankind.

A historical digression is necessary at this point to place the Druze doctrine in its proper Islamic perspective. As a monotheistic religion based on the revealed authority of the Our'an, Islam, in its mainstream Sunni as in its different sectarian forms, has always upheld the principle of equality in human standing among its followers as the basis of true justice ('adl,a opposed to zulm, or 'injustice'). While the Prophet Muhammad lived, all Muslims could stand as equals before his unanimously acknowledged spiritual pre-eminence as the Messenger of God. Following the Prophet's death, however, many Muslims felt that the principle of equality among believers was breached when the *umma*, or community of Islam, passed into the hands of caliphs (khulafa', or 'successors', singular khalifa); these caliphs were chosen from among the old Quraysh aristocracy of Mecca, to the exclusion of other worthy Muslims-Quraysh being the tribe to which the Prophet had belonged. Some among the discontented argued that free elections on the basis of individual merit, regardless of tribal or ethnic origin, should be the basis for the choice of the caliphs, all Muslims being equal. This, historically, was to remain the point of view of the Muslim sect known as the Kharijites (al-khawarij, meanings 'the rebels'). Others maintained that equality among Muslims could only be maintained before the majesty of caliphs of the Prophet's direct lineage, or house (ahl al-bayt), rather than the prophet's tribe. The holders of this view, rallying around 'Ali, the first cousin and son-in-law of the Prophet (as the husband of the Prophet's daughter, Fatima, and the father of the Prophet's only two grandsons, al-Hasan and al-Husayn), came to be known as the shi'at 'Ali, meaning the 'party' of 'Ali; hence, the name of the Shi'a, or Shi'ites, among the Muslim sects.

'Ali did come to head the *umma* as the fourth caliph in succession to the Prophet (AD 556-661), raising the hopes of the Shi'a to see the Muslim supremacy of the *ahl al-bayt* permanently established. When this failed to happen and the Caliphate, after 'Ali, became the dynastic preserve of the Umayyads of Damascus (AD 661-750) and then of the 'Abbasids of Baghdad (AD 750-1258), the Shi'a ceased to recognize the Islamic legitimacy of the reigning caliphs. Instead, they recognized a succession of *imams* as the legitimate guardians of the *umma*, the first *imam* being 'Ali, even before his acclamation as reigning caliph, the second, his elder son al-Hasan (d. AD 669),

Introduction 3

and the third, his younger son al-Husayn (d. AD 680), who was killed in battle against the Umayyads at Karbala, in southern Iraq, while attempting to redeem the Caliphate for the Prophet's house. In due course, a gnostic trend developed in Shi'a Islam, attributing to 'Ali a special standing as the inerrable Vicar of God (waliy allah), his spiritual infallibility passing down by nass, or 'designation', to the imams who succeeded him.

Following the death of al-Husayn, disagreements as to who should be recognized as the next *imam* led to the division of the shi'a into numerous sects. Some maintained that any descendant of 'Ali and Fatima was qualified for the Imamate, provided he was capable of establishing and maintaining himself in the position. These were called the Zaydis, after a great-grandson of 'Ali called Zayd who made a bid for the Caliphate in the late Umayyad period and was killed in the process (AD 740). Others, called the Imami Shi'a, insisted that the Imamate be restricted, by primogeniture, to the male descendants of al-Husayn, the preeminent martyr for the cause of *ahl al-bayt*.

Among the Imami Shi'a, differences arose following the death of the sixth imam A 'far al-Sadiq, who was the fourth in succession to al-Husyan. Isma'il, the eldest son of Ja' far, had originally been designated by his father to succeed as seventh imam; he died, however, while his father was still alive. Accordingly, most of the Imami Shi'a recognized his younger brother, Musa al-Kazim, as seventh imam, following Ja far's death in the AD 765. These Shi'a, eventually came to be known as al-Ithna ashariyya, or the Twelver Shi'a, because they continued to recognize the imams of the house of al-Husayn down to the twelfth, Muhammad, who disappeared in AD 874. (The Twelver Shi'a maintain that Muhammad went into a ghayba, or cosmic 'absence', from which he will ultimately return as al-Mahdi al-Muntazar. T the divinely-guided and awaited one', to redeem the world.) Other Imami Shi'a, however, maintained that "the Imamate does not revert back (al Imama la ta'ud al-qahqara)," that is, that the right of Isma'il to succeed as seventh imam could not revert back to his father, to be reassigned to a younger brother. Hence, there arose the sect of the Sabiyva, or Sevener Shi'a, who recognized Isma'il, and not his brother Musa, as the le-gitimate seventh imam. The Sevener Shi'a, no less than the Twelvers, considered the imam of the Alid lineage to be infallible, the succession of each to the Imamate having been divinely preordained.

Among the Sevener Shi'a were those who maintained that Isma'il, far

from being the last *imam* of the 'Alid-Fatimid house, was actually succeeded by other *imams* from his line who lived in *sitr*, or 'hiding', awaiting the moment when they could re-emerge to establish the legitimate Muslim Caliphate under which justice, on the basis of equality among all believers, could at last prevail. In the view of these *Isma'iliyya*, or Isma'ilis, as they came to be known, it was incumbent upon the faithful to prepare secretly the way for the re-emergence of the legitimate *imams* from hiding, so they could replace the usurping 'Abbasid caliphs of Baghdad as the legitimate rulers of the *umma*.

Such was the efficiency with which the Isma'ili da'wa, or 'preaching', was done, that 'Ubaydallah, the sixth of the 'hidden' immas in succession to Isma'il, was able to emerge in the AD 909 and proclaim himself the first 'Fatimid' caliph in what is today Tunisia. Having done so, 'Ubaydallah formally assumed the regnant byname al-Mahdi, meaning 'the divinely-guided one'. Under the fourth Fatimid caliph, al-Mahdi's great-grandson al Mu'izz (AD 952-975), Egypt was conquered in AD 969 and the Fatimid capital was moved shortly after to Cairo—a new city specifically built for the purpose. Once firmly established in Egypt, the Fatimids began expanding into Syria: a rugged territory where tribalism and lawlessness had been rampant since the downfall of the Umayyads of Damascus in AD 750. The Fatimid conquest of the southern and central parts of Syria was begun during the reign of Caliph al-'Aziz (AD 975-996) and completed during the reign of his son and successor, Al-Hakim (AD 996-1021).

While upholding the principles of Isma'ilism, however, the Fatimid caliphs, once established in power, became so compromised by attending to ordinary affairs of state that they ruled much as other Muslims rulers did, or had done. The one caliph among them who sought to deliver on the Isma'ili promise of the millennium was al-Hakim. Born in the splendour of the Fatimid court, al-Hakim succeeded to power when he was eleven years old. Seated on a golden throne and wearing a turban studded with priceless gems, he was proclaimed caliph on the day following his father's death. Once he had come of age, however, the young caliph rid himself of his guardians and began to introduce radical changes to the manner of Fatimid rule, exhibiting a simplicity, liberality and sense of social justice to which his subjects were unaccustomed. Having firmly established his rule at home, al-Hakim next turned his attention to the completion of his father's conquests in Syria,

Introduction 5

pacifying the country and imposing orderly government upon it. And, in northern Syria, the young caliph proved more than a match for the entrenched Byzantines, both politically and militarily. This brought the Fatimid Caliphate to the height of its worldly power. But al-Hakim had another agenda as well, to which he gave at least equal attention. Bent on promoting ethical standards among his subjects, he introduced a succession of puritanical measures to combat prodigality and libertinism, and to prevent the rich and powerful from harming, or exploiting, the poor and defenceless. These measures seemed highly eccentric and unreasonable to the classes against which they were directed. But to those adhering most strictly to the tenets Isma'ilism, here at last was an imam determined to uphold the long-promised social justice and equality inherent in Islamic doctrine, not only in principle, but also in actual practice. To such Isma'ilis, al-Hakim was no ordinary, divinely-guided and infallible imam, but the fountainhead of the true faith in whose nasut, or living person, the One and ultimate Godhead had come to be revealed.

Starting from the latter years of al-Hakim's reign, the Druze theological concept of tawhid was elaborated first by Hamza ibn 'Ali and then mainly - though not exclusively - by his tali, or 'follower', al-Mugtana Baha' al-Dine. The work was done in a succession of rasa'il, or 'epistles', and a number of other sacred tracts, which are collectively called the Rasa'il al-Hikma (Epistles of wisdom). Following the disappearance of al-Hakim, Druze preaching (da wa), which had gradually come to a halt in Egypt, began to be directed chiefly toward Syria, where it continued until AH 434/ AD 1042: the date of al-Mugtana Baha' al Din's Risalat al-Ghavba (Farewell Epistle). In Syria, the preaching attracted a following among the Arab tribes and clans inhabiting such rugged mountain areas as Jabal al-Summag (in the vicinity of Aleppo), Wadi al-Taym (the western slopes of Mount Hermon), the Shuf mountains of the southern Lebanon, and the hill country of the southern Galilee and the adjacent Golan (al-Jawlan), as well as in the peripheries of the Ghuta, or 'oasis' of Damascus, and the mountain borders of the Hauran plain to the south (the area that subsequently came to be known as Jabal al-Duruz, meaning the Druze Mountain). These are areas known to have been settled by branches of the major South Arabian tribal confederations, for the most part before the coming of Islam. In the regions where it spread, the Druze teaching provided spiritual impetus for a wave of rural revolts that were apparently aimed at the dispossession of established landlords in favour of a free peasantry. (One such revolt, in Jabal al Summaq, was suppressed with the utmost severity in AH 423/AD 1032.) Before long, however, al-Muqtana Baha' al-Din withdrew into concealment and the Druze da^cwa ceased in Syria. It was subsequently taught that no further conversion to the true tawhid would be accepted.

Thus, the Druze, almost from the very beginning, emerged as a closed community, accepting no proselytes and keeping their doctrines secret. Their faith, as formulated by Hamza and al Muqtana Baha' al-Din, derives inspiration from the speculative Muslim theology of the Mu'tazila (eighth to tenth centuries AD) and the neo-Platonic gnosticism of Ikhwan al-Safa (tenth century AD). It also reflects the influence of the ancient Greek thought, according special reverence to leading Greek philosophers such as Pythagoras, Socrates, Plato, Aristotle and Plotlinus. Fundamental tenets of Druzism prescribe unqualified equality among believers, be they men or women, as well as a strict moral discipline enjoining them, first and foremost, to be honest and truthful among themselves, to defend and help one another, and to maintain the secrecy of the faith.

By the time of the great Druze reformer 'Abdallah al-Tanukhi, often known as al-Sayyid (d. AH 885/AD 1480), if not largely by his initiative, Druze religious practice came to distinguish between two categories of believers among both men and women; the 'uagal (meaning the 'wise'), who had sought and received initiation into the tenets of their faith, and the juhhal (meaning the 'ignorant', or 'uninitiated'), who had not. Distinguished by a special zavy, or dress, the *quagal*, once initiated, were expected to lead sober and virtuous lives, recite regular prayers, abstain from all stimulants, accept no goods or emoluments from morally questionable sources, avoid violence and other excesses in behaviour, maintain salutary relations with everyone, and place their good offices at the service of the community for the settlement of disputes. The juhhal, though expected to abide by the Druze code of communal honour, were not bound by any religious obligations; for spiritual guidance, they depended on the counsel of the 'uagal. When the community was in danger, however, it was for the juhhal, not the 'uagal, to take up arms in its defence. Hence, the famous Druze saying: "Without 'uqqal, people lose their rights; "without 'uggal, people lose their rights; without juhhal, they are cut to pieces (Oawm bila 'uaaal da'at huaua-hum; aawm bila iuhhal rahu aatavi')."

Introduction 7

What further heightened the sense of group solidarity and communal continuity among adherents of the Druze faith was its teaching that the number of souls in existence is fixed and immutable. According to this teaching, the individual soul, upon death, is immediately reincarnated, unless it has reached perfection and is so subsumed into eternal bliss. The souls of the Druze are invariably reincarnated as Druze, each soul being subjected to repeated moral testing in its successive incarnations. Druze failing the test in one incarnation may pass it in another. Likewise, Druze who do not seek admission into the ranks of the 'uqqal in one incarnation may choose to do so in another. The final judgement will only come on the Day of the Resurrection (Yawm al-Qiyama) when al-Hakim returns to the world; then, those Druze souls that best acquitted themselves in their successive incarnations will dwell nearest to God.

It was the passive expectation of al-Hakim's return to vindicate the true faith that sustained the Druze in their rugged Syrian homelands through the vicissitudes of the centuries that followed. Just as important, however, was the community's internal discipline. Historically, Druze society has been marked by a degree of mutual confidence and respect among its component elements that is rare in the annals of communal life. And therein lies the secret of the survival of the Druze community in the worst, as in the best, of times. Because they are confident of their communal solidarity, the Druze have never feared social or political cooperation with others, asking only that such collaboration be based upon equality, reciprocated courtesy and goodwill—the refinements of Druze courtesy being, indeed, proverbial. The fact that they neither sought nor accepted converts to their ranks gave them no reason to be intolerant of other religious groups.

It was during the period of Crusader rule in Syria (1099-1291) that the Druze first emerged into the full light of history, in the Gharb region of the Shuf mountains. As redoubtable warriors serving the Muslim rulers of Damascus against the alien invaders, the Druze were given the task of keeping watch over the Crusaders in the seaport of Beirut, with the aim of preventing them from making any encroachments inland. Subsequently, the Druze chiefs of the Gharb placed their not inconsiderable military experience at the disposal of the Mamluk rulers of Egypt (1250-1516); first, to assist them in putting an end to what remained of Crusader rule in coastal Syria and, later, to help them safeguard the Syrian coast against Crusader

retaliation by sea. (In 1425, a Druze contingent from Beirut and the Gharb joined in a major Mamluk naval expedition against Cyprus, where the last remnant of Crusader rule in the Near East was reduced to subservience.) In return for the valuable services rendered by the Druze of the Gharb and other parts of the Shuf mountains, the Mamluks appear to have allowed them the freedom to manage their internal affairs with minimal interference from the central government in Cairo, or its Syrian agency in Damascus.

(The history of the Gharb Druze during the Crusader and Mamluk periods is known from the work of two remarkable Druze historians, Salih ibn Yahya (d. ca. 1435) and Ahmad ibn Hamza ibn Sibat (d. 1523), no such documentation being available regarding the Druze of other Syrian regions. It appears, however, that the Druze of Hauran were among the peasants and tribesmen of that area who fought and decimated the forces of the second Crusade, as they advanced from Palestine to attempt the capture of Damascus in 1147. Notably, the Druze placed their military resources at the disposal of the Sunni Muslim state against the Crusaders at a time when their community was being singled out for special condemnation by the Sunni religious establishment on account of its beliefs.)

Unlike the Mamluks, the Ottomans who succeeded them as the rulers of Syria in 1516were not prepared to allow the Shuf Druze the customary local freedoms which they had come to regard as established rights. Consequently, the sixteenth and seventeenth centuries were to witness a succession of armed Druze rebellions against the Ottomans, countered by repeated Ottoman punitive expedition against the Shuf in the course of which the Druze population of the area was severely depleted and many villages laid waste. These military measures, however, severe as they were, did not succeed in reducing the local Druze to the required degree of subordination. This led the Ottoman government to agree to an arrangement whereby the different nahiyes (districts) of the Shuf would be granted in iltizam (that is, in fiscal concession) to one of the region's emirs, or leading chiefs, leaving the maintenance of law and order in the area, and the collection of its taxes, in the hands of the appointed emir. This arrangement was to provide the cornerstone for the privileged status which ultimately came to be enjoyed by the whole of Mount Lebanon in Ottoman Syria, Druze and Christian areas alike. (The history of the Shuf Druze for the Ottoman period is known from

Introduction 9

the work of Christian-mainly Maronite-historians, as well as from other local and Ottoman sources, and from Ottoman archival material.)

(Remarkably, the Shuf Druze had taken up arms against Ottoman rule when the Ottoman Empire was at the peak of its power. Starting from the middle decades of the nineteenth century, the Hauran Druze of Jabal al-Duruz—whose earlier history remains obscure due to a lack of documentation—put up a similar resistance to determined efforts on the part of the Ottoman state to tighten its weakened control over Syria. Later, in the mid 1920s, these same Hauran Druze rose in armed rebellion against the French shortly after France, emerging victorious from the First World War, was allotted its mandate over Syria and Lebanon. This Druze revolt was to trigger a general Syrian insurrection against the French Mandate, lasting for nearly three years.)

Historically, the close relations between the Druze and Christians of the Lebanon date back to the sixteenth century, when the Druze of the Shuf, whose livelihood depended on silk production, first opened their country to large-scale Christian—and principally Maronite—peasant migration from the north, to help produce the silk. To encourage this Christian immigration, the leading Druze chiefs of the area made generous donations of land to Maronite and other Christian monastic orders for the building of monasteries and churches; tradition has it that the Druze villages where the Christian newcomers settled came to be called 'honoured villages (diya' musharrafa)'. Meanwhile, as the Druze emirs holding the iltizam of the Druze area gained control over the adjacent Maronite nahiye of Kisrawan, the management of the affairs of Mount Lebanon developed into a close Druze-Maronite partnership.

Having the advantage of numbers and of privileged external connections, the Maronites eventually started to gain the upper hand in his partnership. This development appears to have elicited little Druze concern in its initial stages but, before long, tensions began to rise. Incited and openly backed by France, the Maronite clerical and feudal leadership began, from the 1840s, to seek complete dominance over the whole of Mount Lebanon, causing the Druze to feel dangerously threatened on their very home ground. When the Druze reaction, in full force, finally came in 1860, its violence was such that the Christian parties who had provoked it fled the scene, leaving the defentless Christians of the Druze regions to their fate.

While the manner in which the Druze fell upon their terrified Christian neighbours in 1860-in the Shuf. Wadi al-Taym and elsewhere-went far beyond the justifiable limits of self-defence, what is represented at the time was an outburst of pent-up feelings of hostility provoked by decades of equally unjustified Christian provocation. Over a century later, during the course of the multifaceted Lebanese civil war of 1975-1991, Christian provocation was even more pronounced and included indefensible attacks on isolated and unprotected Druze communities in different parts of Mount Lebanon (notably, in the Matn and Shahhar districts). This was a decisive factor in eliciting violence with which the Druze attacked Christians living in their midst in 1983, devastating their villages and forcing a massive Christian exodus from the Shuf. In both instances, the Druze recourse to violence represented a departure from the historical Druze norm, which had emphasized peaceful coexistence on the basis of equitable partnership and mutual goodwill. However, to maintain this norm, the community had first to attend to its survival, which is why, at various turning points in their history, the Druze felt compelled to resort to arms when they perceived their community to be in danger. This compulsion was the same regardless of whether the perceived danger came from a neighbour or an external power, or whether the odds were with the Druze or overwhelmingly against them.

Proud of their communal identity and solidarity, the Druze have also been staunchly attached to their native soil; the same Druze families have lived in the same towns and villages, if not the same houses, for centuries, with hardly an interruption. Attachment to community and territory, however, has never been a bar to active Druze involvement in the affairs of the broader societies to which they belonged; nor has it obstructed the Druze commitment to the wider Arab identity that they share with other Muslim and Christian communities of the Near East. Moreover, though socially conservative, the Druze have exhibited a remarkable openness to Western cultural influences in modern times. During the nineteenth and early twentieth centuries, Lebanese Druze chiefs welcomed and offered their protection to British and American missionaries arriving to establish schools and colleges in the Shuf mountains, as they had in Beirut; furthermore, by sending their own sons and daughters to these teaching institutions, they set the example for others. As a resultd, the spread of modern education began particularly early among the Druze, no less than among Lebanese

Introduction 11

Christians. In due course, Druze educated at home or abroad came to be counted among those playing leading roles in the social, economic and cultural advancement of Lebanese society, as of the broader Arab society thereby placing their community in the vanguard of the Arab development.

All of these considerations make the heritage of the Druze community a subject worthy of serious academic investigation —beginning with a thorough survey of Druze literature and of centuries of literature written about the community, both by its supporters and by its detractors. Hopefully, the present bibliography, will help provide not only the basic material, but also an incentive for further study in the field,

Kamal Salibi

Bibliography - Books

أوراق مضيئة للأمير الفارس قاهر اتفاقية سايكس بيكو، مجيد بن Abbud, Ilyas. توفيق أرسلان على خطى الأسلاف المجاهدين مؤسسي لبنان العربي مع ذكريات عن عنه ود لل خورى، شدعه ون، شهاب، للحلو، فوند جية وسركيس

The shining record of the heroic prince, vanquisher of the Sykes-Picot Agreement, Majid bin Tawfiq Arslan: In the footsteps of the forefathers, the founders of Arab Lebanon, with reminiscences on the eras of al-Khuri, Sham'un, Shihab, al-Hilu, Franjiyye and Sarkis. Beirut: the author, 1984.

Abbud's book is a rather amateurish attempt to write a biography of Majid arslan, former leader of the Yazbaki faction of the Druze community in Lebanon and a parliamentary deputy and cabinet minister on an almost regular basis after independence in 1943. The book begins with a survey of the history of the Arslan family since the time of its arrival in Mount Lebanon as one of the Tanukh clans. The sections that follow deal with the history of the family during the epochs of the Ma'nid and shihabi emirates and until the establishment of an independent Lebanese state. The last part of the book deals exclusively with Majid Arslan as political leader and politician. Several appendices appear at the end of the book, one of them dealing with Arslan's role in the battle of Malkiyye during the 1948 Arab-Israeli war; at the time, Arslan was the Lebanese minister of defence.

'Abd al-Baki, 'Issam. Les Druzes (Essai d'étude) The Druze (study essay). Beirut: Dar Nelson, 2006. 214p.

Depuis l'apparition de la civilisation, son parcours ne fut ni homogène nirectiligne. Parsemé de pics et de creux, de hauts et de bas, ce parcours sauvegarda néanmoins sa direction positive qui agissait en faveur de l'être humain et lui assurait, autant que faire se pouvait, le bien-être matériel et

spirituel. C'était, du moins, l'une des tâches des sociétés traditionnelles. Actuellement, avec l'avènement de la globalisation, la civilisation change de ton. L'aspect grandioseet surabondant de le nouvelle technologie implante unemodernité de la vie humaine. Les sociétés traditionnelles, piliers des vieutemps, disparaissent à vue d'œil sans que nul, du moins apparemment, ne s'en soucie. Serait-ce le destin de la communanté druze? Nous ne sommes pas amateurs de société tradionelles, mais nous les respectons. En jalonnant l'Histoire, elles ont, chacune accompli leur devoir et assumé leurpart, souvent énorme, dans le patrimoine de l'humanité. De plus en plus, on quitte ces moments où chaque société avait sa propre identité et son caractère unique. La civilisation contemporaine, férue de renouveau, condamne ce qui est ancien. Est-elle indiscutablement positive? Notre réponse est plutôt négative.

Abraham, Antoine J. Lebanon at mid-century: Maronite-Druze relations in Lebanon 1840-1860: a prelude to Arab nationalism. Washington, DC: University Press of America, 1981. 144p.

Contrary to what the title of the book suggests, the theme of the book is that the Maronite community in Lebanon, called the "Maronite Nation" arbitrarily by the author, has become conscious of its identity as a nation as early as the nineteenth century and since then has been fighting against the Ottomans and their supporters, the Druzes (also called a nation, p. 2) in Lebanon in a war of national liberation. . . [Tlotally lacking also is any attempt to describe the Maronite-Druze relationship, socio-economic or political, during the period of 1840-1860. What we find instead is a host of characters barely identified who come and go battling each other on the question of succession to the emirate of Damascus, Sidon or Acre. Ironically, none of the characters, whether belonging to the Ma'nid or the Shihabi dynasty, were Maronites, the first being Druze, the second Muslim Sunni, Yet, the author wants us to believe that Fakhr El Din II and Bashir Shihab II, his two main characters, were fighting for the Maronite nation. The first 80 pages of the 144-page publication includes a discussion of elementary historical incidents that are barely related to the supposedly main focus of the book. Only in chapter five does the author begin to deal with the topic and here the weakness of the book becomes glaring ... [for] the author chose to limit himself to unsupported assertions that the conflict that emerged between 1840-1860 was a Maronite national liberation movement against the Ottomans and their agents the Druzes. Finally, as a dissertation hurriedly turned into a book, the study under review suffers from many weaknesses, such as the inordinate, inappropriate and unfortunately inaccurate use of footnotes. Abu Hamdan, Taysir. الدروز، مسلكاً ومعتقداً The Druze: Behaviour and beliefs. Amman: Azmina lil-Nashr wal-Tawzi, 1992.

Abu-Hamdan's work surveys Druze doctrine and history, emphasizing their spiritual, politico-military and social aspects. The spiritual section deals with the issues of mashyakhat al-aql (the religious leadership of the sect), Druze shrines, Druze holidays and taqammus (the transmigration of souls). The politico-military section surveys the battles the Druze have fought throughout their history. The social aspect includes marriage and funerary customs, as well as Druze costumes and folklore.

Abu Hassun, Ahmad. الموحدون بين الحقيقة والخيال The Muwahhidun between reality and imagination. Damascus: Matbaat al-Kawakib, 1997.

Abu 'Izzeddin, Nejla Mustafa. The Druzes: A NewStudy of Their History, Faith, and Society. 2d impression, with corrections. Leiden: E. J. Brill, 1993. 259p. First published in 1984. Map.

In her preface, Abu-Izzeddin gives two reasons for writing this book: first, to place the origins of Druze beliefs in the context of developments in Ismailism during the Fatimid period and, second, to examine the role of the Druze community in the history of the countries today known as Lebanon and Syria. While her first chapter utilizes an anthropolometric concept of race now unfashionable among anthropologists, subsequent chapters provide a wealth of information generally inaccessible to scholars. Her examination of pertinent and sometimes obscure Arabic sources on Fatimid history and the Shii origins of Druze concepts and doctrine permits her to shed new light on how Druze religious beliefs and precepts have contributed to the establishment and development of their unique community. Although occasionally uneven in both style and thesis, Abu Izzeddin's study is a valuable contribution to contemporary scholarship.

Abu 'Izzeddin, Nejla Mustafa. The Racial Origins of the Druzes. Chicago: n.p., 1944. [Illustrated.]

This work uses anthropological methods to measure and index the physical features of the Druze as an ethnic group.

Abu 'Izzeddin, Nejla Mustafa. للدروز في التاريخ The Druze in history. Beirut: Dar al-'ilm lil-Malayin, 1990.

This is an historical and anthropological survey of the Druze that places their rise within the context of the Ismaili-motivated al-Qaramita socio-economic movement. Next, the book deals with the establishment of the Fatimid state and the reign of al-Hakim bi-Amrillah. The following chapters deal with different spiritual aspects of Druze Tawhid and, finally, the history of the Tanukhi and Ma'n emirs in Mount Lebanon.

This book was originally written in French, possibly as Abu-Muslih's dissertation.

Abu Muslih, Hafiz. واقع الدروز: معتقداتهم، خلواتهم، أدباؤهم وتاريخ دير القمر The facts about the Druze: Their beliefs, religious retreats, men of letters and the history of Dayr al-Qamar. Beirut: al-Maktaba al-haditha, [?1980s].

An expanded second edition of the book immediately preceding to which the author added a chapter entitled "Al-Mukhtasar fi tarikh Dayr al-Qamar." According to the author, this last chapter was taken from another book of

his, entitled Tarikh al-Qura; however, it is not clear whether the latter was ever published.

Abu Muslih, Hafiz. وعد الأرض And the land returned. al-Qrayye, Lebanon: Matabi Zayn al-Din, 1984.

An account of a tour undertaken by the author in the Shuf and Aley regions of Mount Lebanon after their 'liberation' by Druze militiamen from the Christian Maronite Lebanese Forces in the summer of 1983. The author surveyed 21 villages in the two regions, the majority of which had once been inhabited by Christians, but which he found destroyed and empty. In spite of the flowery literary language of the text, it remains an honest firsthand account of the scale of the physical destruction and human suffering that occurred during the Druze-Maronite civil war in Mount Lebanon between 1982 and 1985.

'Alam al-Din, Najib. *The Flying Sheikh*. London: Quartet, 1987. 290p. [Raymond N. Habiby, *Journal of Asian and African Studies 28*, nos. 1-2 (January/April 1993): 135-6.]

Sheikh Najib Alam al-Din, former long-time Chairman of the Board of Directors of Middle East Airlines, stands as a legend in Lebanon's contemporary history. . . . [He] rose to both national and international fame in the business world. He is the man who developed Middle East Airlines (MEA) from a smaller feeder airline to an important and respected international air carrier. . . . The Flying Sheikh, a name the media gave him, found time on top of managing MEA to serve as a cabinet minister, a member of the Board of Regents of the American University of Beirut and serve on the Board of the International Air Travel Association (IATA). This exceedingly fascinating book with its uncompromising realistic outlook, comparative narrative style, and keen humour and wit, is the life story of the author, a life that cannot be separated from the two biggest enterprises in Lebanon, namely the Middle East Airlines and Intra Bank. Naturally the story of those two companies is the story of Lebanon's post World War II politics, and in particular confessionalism and the singular power of the President of the Republic. The story of contemporary Lebanon cannot be told without some understanding of the different roles played in Lebanon and the region by the USA, Britain, France, Israel, the USSR, and other Arab countries. This is why the book is ... a must reading for anyone interested in the Middle East and Lebanon in particular.

'Alam al-Din, Najib. Turmoil: The Druzes, Lebanon, and the Arab-Israeli

Conflict. London: Quartet Books, 1993. 292p. Illustrated. Map. [Raymond N. Habiby, Journal of Asian and African Studies 29, nos. 1-2 (January/April 1994): 156-57.]

The book deals with three separate but interrelated subjects. The first is the story of the Druze throughout history, the second is the story of the long drawn-out Maronite-Druze conflict including the recent Lebanese civil war and the author's reflections on the future of Lebanon, and the third is a discussion of the Arab-Israeli conflict. The author is surprised that in spite of a long record of friendly Druze-British and Druze-US relations, there is little understanding of the Druze by both the British and the US publics. The book is an attempt to introduce the uninitiated British and American publics to the Druze of the Middle East. . . . The second and third parts of the book are exceptionally interesting since the author draws heavily on his personal knowledge and experiences as a renowned Lebanese and Middle Eastern personality who was both an astute observer and a direct participant in Middle East developments and turmoil... [The author] strongly argues that the problems of the world and those of the Middle East in particular are the work of the arms merchants who keep creating or widening conflicts as a means of selling the weapons they produce and reaping profits. . . . The most incisive part of the book is the author's study of the Arab-Israeli conflict. He is a strong advocate of peace and is critical of the Arabs for having gone to war although they realised that the United States would never allow Israel to go under. ...He suggests a "solution" to the Arab-Israeli conflict which includes the resettlement of the Palestinian refugees in the Arab world, with each state accepting a percentage based on the size of its population

'Alam al-Din, Nura S and Paul D. Starr. Crucial Bonds: Marriage among the Lebanese Druze. Delmar, NY: Caravan Books, 1980. 129p.

This study is based upon an examination of marriage records compiled by Lebanese courts from 1931 to 1974 and interviews with informants, all within the framework of the authors' familiarity with Druze society. After first acquainting the reader with Druze cultural and religious beliefs, Alam al-Din and Starr present and analyze their quantitative data, giving particular attention to the role of the bride price (mahr) in marriage among Lebanese Druze. However, although they provide insights into the

connection between the amount, use and social function of the mahr and other aspects of Druze social organization, a certain vagueness impairs their analysis of such questions as the way in which marriages are arranged and the role of women in the negotiation of marriage contracts. This deficiency may be linked to the lack of empirical data on these subjects. Nonetheless, the authors provide a highly credible account of marriage practices among Lebanese Druze.

'Aridi, Ghazi (al-). كلمات الزمان الصعب The speeches of hard times. Beirut: Ghazi al-Aridi, 1992.

This book is a collection of al-Aridi's political commentaries broadcast by Sawt al-Jabal, the radio station run by the Druze-dominated Progressive Socialist Party (PSP), during the height of what was known as Harb al-Jabal (the War of the Mountain) in 1983. Al-Aridi was then the managing director of the radio station and his commentaries indicate the Druze point of view concerning contemporaneous political developments in Lebanon. The vast majority of them are attacks against the bias and animosity of the Lebanese government toward the Muslims, in general, and the Druze, in particular.

Atashe, Zeidan. Druze and Jews in Israel: A Shared Destiny?. Brighton: Sussex Academic Press, 1995. Foreword by Gabriel Ben-Dor: Maps. Portraits. Xvi + 207 pages.

The "shared destiny" in Atashe's title is a reference to what he sees as the historically similar positions of Druze and Jews as religious minorities in their countries of habitation over the centuries; both religious communities, he argues, "participated in all spheres of life" and sustained "their religion, heritage, language, culture and family ties" no matter where they live or live today. He starts by providing a short history of the Druze religion and its adherents; by chapters 3 and 4, he is already recounting the details of the budding relationship between the Jewish and Druze communities in mandatory Palestine and the way in which this development was greeted by Arab nationalists. Atashe's final three chapters (7 to 9) provide an account of the Druze community in Israel since the 1960s. His main argument, more polemic than academic, is that the Druze have received insufficient compensation for their cooperation with the society and state of the Jewish majority.

Al-Atrash argues that the Sunni and non-Sunni rulers of Syria, both before and after independence, carried out deliberate policies aimed at weakening the Druze community in Syria by creating dissension within its ranks. Several historical examples of this supposed policy are given as evidence, such as the Ammiyya of 1948 (in which Druze commoners revolted against the control of their Atrash emirs) and the military campaign sent by Adib al-Shishakli, the Syrian strong man, against Jabal al-Duruz in 1953.

'Azzam, Intissar Jamil. Gender & Religion: Druze Women. London: Druze Heritage Foundation, 2007.

This first anthropological study of gender and religion through the experience of the Druze women in Lebanon comes in response to a serious void in this field of knowledge and provides profound insights into gender relations amongst the Druze faith of al-Tawhid as a progressive challenge to the prevailing patriarchal values at the time of its inception during the early decades of the 11th century as well as the present time. With authentic reflexivity of a concerned insider, Azzam reveals a serious gap between the ideal status of women in al-Tawhid and their life experiences. In the attempt to explain this ambiguous reality and detect the sources of the drift, Azzam explores the historical course of al-Tawhid perspective of gender and gender roles and critically examines the transformations of the conceptualizations and practices concerning gender relations among the Druze, and the institutional patterns which gave and continue to give these conceptualizations and practices an appearance of unvielding permanency. Consequently, the study comes forth as a genuine cultural critique aimed at a better understanding of gender roles and relations.

Ben-Dor, Gabriel. The Druzes in Israel, A Political Study: Political Innovation and Integration in a Middle Eastern Minority. Jerusalem: Magnes Press, 1979. 287p. [Maps.]

In this measured and provocative study, Ben-Dor examines the degree to which integration and assimilation have affected the tiny Druze community of Israel in an effort to address the broader question of political innovation and integration as survival strategies among minorities. Overall, Ben-Dor's sources seem to be broad and comprehensive. His account of the historical, social and political environment of the Druze community, as well as his analysis of the inherent incongruities between notions of cultural cohesion

and religious plurality, or state theocracy and democracy, draws on the perspectives of Druze and Jews, locally and in the national arena. The only noticeable defect is his total reliance upon the opinions of men when considering the position and role of Druze women in their own communities and in the wider society of Israel.

Bouron, Narcisse (Captain). Les Druzes: Histoire du Liban et de la montagne haouranaise. Paris: Berger-Levrault, 1930. 424p. Maps (part fold.). Plates. Genealogical tables.

[This is a] monograph on the Druzes that ought to satisfy the curiosity and will hold the interest of all who read it. General Weygand in the preface points out the qualifications of the author, who has lived among the Druzes and writes as one who knows. The book falls into three parts, of which the first deals with the geography of the country east of the Jordan and south of Damascus. The second part sketches the history of Syria and the rise and history of the Druze sect until their revolt against the French in 1925. The third part of the book tells of the beliefs and practices, the manners and the customs of the Druzes. The book contains seventy-four illustrations, three coloured maps, a good bibliography, together with a number of appendices, one of them in regard to the episode of Lawrence. Unfortunately, there is no index. [Z., Moslem World 21, no. 3 (July 1931): 317.]

Marriage customs in Lebanon: الشرعية، القوانين التنظيمية، الخطبة والعرس Legal origins, governing laws, engagements and weddings. Beirut: Bisan, 1998. This book is divided into four sections and a number of appendices. The first section deals with the legal aspects of marriage among the Druze and compares them with their Islamic and Christian counterparts. The second section deals with the choice of the bride, the preparatory steps taken before the engagement and the amount of the dowry. Sections three and four deal with the actual wedding celebrations and all of the accompanying traditions. The appendices are facsimile copies of a number of Druze marriage certificates from the eighteenth and nineteenth centuries.

Bushakra, Mary Winifred. I married an Arab. New York: John Day, 1951.

This very intimate account tells of the experiences of an American Quaker woman married to an Arab-American Druze and their migration in 1937 to Mount Lebanon. Although she and her husband were searching for "freedom to live, freedom to do as we wish," the author gradually realized that her new community was itself constrained by norms of hospitality and intricacies of social behaviour that included very different notions of personal privacy, the status of women and the privileges of the extended family. But despite some bitter experiences, she writes without resentment, telling her own story in a conversational style accessible to readers with no knowledge of the Arab world or the Druze.

their faith, their belief in the transmigration of souls and their initiation practices.

Chasseaud, George Washington. *The Druses of the Lebanon*: Their Manners, Customs, and History, with a Translation of Their Religious Code. London: R. Bentley, 1855. 422p. [Map. Frontispiece.]

A volume realising the promise of such a title would command no vulgar interest, especially from a writer whose opportunities of observation and study were so considerable as those which appear to have been enjoyed by Mr Chasseaud. But we are sorry that we cannot say that Chasseaud has been equal to his opportunities. He has undoubtedly given us a certain insight into the customs of those extraordinary tribes, and some of his pictures are not altogether wanting in colour and animation; his version, too, of their religious and moral system is sufficiently interesting, but the two or three dozen pages which he devotes to their history are a bad title on which to found a claim to be called a historian of the Druses. In truth, his pretensions are more modest in the text than in the title; for in the former he claims only to have given "a brief historical sketch"; but unless the responsibility of the title can be shifted upon the publishers, the author has sent out his book in a character which it cannot sustain. The sketch, such as it is, while it deals chiefly with matters of secondary interest, and touches upon the many theories that perplex our inquiry into the origin of the Druses; scarcely at all notices the struggles between them and the Maronites, which have contributed more, perhaps, to make them known to Europe, than any other occurrence in their history, worthy as that history is of being studied for the singular characteristics of religion and government it discloses, and the curious theories involved in its origin. The most hopeful feature, as it occurs to us, in Mr Chasseaud's book, is the youthfulness of the style, from which we are inclined to infer, though perhaps without sufficient warrant, the youth of the author. . . . Beyond a few opinions modestly ventured as to the descent of the Druses from the ancient Hivites, and some snatches of their modern annals, there is not much information of an historical kind to be derived from the volume. . . . We now come to the portion of Mr Chasseaud's book which has been most satisfactory to us, and it is, of all others, the appendix. It contains an epitome of the mythology and morality of the Druses from native sources, being a translation of their symbol, and

give evidence of that strong family likeness to ... Gnosticism. ...Ivall not be easy to take up the broken links between the last of the Gnostics and the first of the Druses, and perhaps it might be matter for speculation whether any tradition of Gnosticism descended to the latter, or whether their profession, like the Gnostic heresies, was not the result of a renewed though isolated effort to connect the truths of revelation with philosophy and fable. . . . [A]nd, taken in all its relations, the history of the Druses, their manners, customs, and religion, could not fail of being an instructive and engaging study. [Dublin Review 38 (March/June 1855): 121-133.]

Chebli, Michel. Fakhreddine II Ma'an: Prince du Liban (1572-1635). Beirut: Imprimerie Catholique, 1946. 190p. Bibliography.

Based largely on documents in the archives of Florence and on Lebanese historical sources, this is a study of the Ma'nid emir, Fakhr al-Din II, regarded as one of the founders of modern Lebanon.

Churchill, Charles Henry [Colonel]. Druzes and the Maronites under the Turkish Rule from 1840 to 1860. Middle East Collection. New York: Arno Press, 1862, 300p.

Churchill provides an eyewitness account of the troubles that began in Mount Lebanon in 1840, which culminated in the civil war and massacre of 1860; he also gives a description of the motives and personalities involved.

Churchill, Charles Henry [Colonel]. Mount Lebanon: A Ten Years' Residence, from 1842 to 1852, Describing the Manners, Customs, and Religion of Its Inhabitants; With a Full & Correct Account of the Druse Religion, and Containing Historical Records of the Mountain Tribes. London: Saunders and Otley, 1853. 3 Vol. [Map (fold.). Frontispiece (portraits). Plates.]

The author of the work ... writes, not as a mere traveller across the Lebanon ranges, but as one long resident there. Among the illustrations which adorn his volumes is a picture of his own mansion at Howarra. The motives of his ten years' sojourn among these mountain-tribes he does not tell us, and we learn nothing more about him in the body of the work than is contained in the title-page, and in the dedication where he speaks of himself as the "faithful and obliged friend" of the Duke of Wellington. That he is a man of thorough education and refined state, the style of his writings sufficiently proves. Disclaiming the credit of an historian, he has produced a work which has the order, the substance, and the value of history, with the freshness of a novel. . . . The ulterior motive of Colonel Churchill in publishing such a work is patriotic. He wishes England to be aware of the value of this Syrian territory, that, when the Turkish empire is dismembered and the Turkish power overthrown ... England may avail herself of her growing popularity in the East to assume the protectorate, if not the ownership, of the Lebanon. He urges this for military as well as for commercial reasons. Lebanon is the

great natural fortress which stands midway between the Eastern and the Western world." Nor does he omit the still higher philanthropic and religious plea; but eloquently prophesies that the English occupation of the mountain and the commercial intercourse resulting from it will "draw together and unite hitherto divergent races of mankind in the humanising relations of fraternity and peace." ... A long residence among the Druses, and a familiarity with their customs, their industry, their Sheiks, and their people, have enabled Colonel Churchill to correct entirely the popular judgement concerning them. They are evidently much more to his liking than their rivals, the Maronites, and far superior in the nobler elements of character. Their ardent patriotism, their unity of sentiment, their fraternal spirit, their simplicity of life, their reverence for the aged, their exemption from superstition and priestcraft, their treatment of the female sex, so much in advance of the tribes around them, the splendid abilities and chivalrous valor of their aristocracy, all combine to refute the slanders which their enemies are never weary of repeating. The scheme of their secret religion is more rational than the creed of any Moslem or Christian sect in Syria; and the lives of their "Ockals", who are the "initiated", not the priests, but the wise men of the body, are much more consistent and saintly than the lives of dervishes or monks in the Lebanon region. . . . The Druses number in all Syria less than one third as many as the Maronites of the Lebanon, yet they can bring into the field a larger army of fighting men, better disciplined, and more inured to the fatigue and privation of mountain warfare. Their Sheiks and Emirs have always been the ruling spirits of the mountain. The houses of Maan, Jumblatt, and Shehaab have furnished a line of princes who would be remarkable in more civilised lands. Colonel Churchill relieves the monotonous detail of feudal jealousy and strife, family intrigues, wars with the Pachas at Sidon and Damascus and with the Turkish and Egyptian generals, by numerous personal sketches of the more celebrated of these native rulers. His account of the rise of the House of Maan, of the Emir Fakaradeen, his genius, his attainments, and his shifting fortunes, is exceedingly graphic. This Emir, in despair of resisting the rapacity of his Turkish masters, which in the beginning of the seventeenth century was at its highest point of insolence and extortion, took the desperate resolution of quitting his native land. The story of his departure, his voyage, his landing at Leghorn, and his reception and honour at the luxurious Tuscan court; his scruples about the heathen food of his entertainers; his sharpness in baffling curious enquiries about his own private affairs and about the numbers of his people: his dignified answers to the kings of France and Spain, the latter of whom promised him a better government than he had left if he would only become a Christian; his filial obedience to his mother's summons, bidding him come back again to Syria: his laconic answers to the Grand Duke, who sought to hinder his departure, and, finally, his dramatic start, with a barrel of gunpowder, which he caused to be put in a vessel, and threatened to explode if anyone attempted to prevent his sailing; his enthusiastic reception by his friends and subjects after five years' absence; this singular story makes one of those pleasant episodes which abound in the work. . . . The most elaborate sketch in Colonel Churchill's volumes is that of Emir Bechir Shehaab, who in all the early part of the present century ruled the native tribes of the Lebanon with a dictatorial sway. This extraordinary chief manifested in excess at once the virtues and the faults of his race. He was as strict in his justice as he was severe in his discipline; as courteous as he was cunning; as gentle to captives as he was implacable to foes. His tyranny was balanced by his generous condescension. Simple in his own private tastes and habits, he kept always at his court the state of a monarch, awing by his dignity, and dazzling by his magnificence. . . . He was for years emphatically first in war, first in peace, and first in the hearts of his countrymen. In the consolidation of his own splendid tyranny, he freed the people from the more galling oppression of their feudal masters. A secret conversion to Christianity, known to the Maronite priests, but not believed by the Druses, made him popular with the tribes of the North. ... With consummate art he made of his masters, first patrons, then allies, and then vassals. And he has left a name in Lebanon which suggests at once commanding genius. terrible energy, comprehensive wisdom, and perfect equity, a name which all the people are proud to remember and prompt to honour. [North American Review 81 (1855): 69-90.]

Churchill, Charles Henry [Colonel]. بين الدروز والموارنة among the Druze and the Maronites. Fandi al-Shaar. Beirut: Dar al-Muruj, 1984.

This is a translation of Churchill's Mount Lebanon.

Cleveland, William L. Ataturk viewed by his Arab contemporaries: the opinion of Sati's al-Husri and Shakib Arslan. New jersey (USA): Princeton University, 1982.

Cleveland, William L. Islam against the west: Shakib Arslan and the

campaign for Islamic nationalism. Modern Middle East Series. Austin: University of Texas Press, 1985. 223p.

Cleveland's ... study is on the life and political activities of the Emir Shakib Arslan, Arslan was a [Druze] aristocrat, who at first distinguished himself as an Arab literary figure and spent most of his early career as a civil administrator (qaYimaqam) in the province of his ancestors (Shuwayfat, Lebanon). . . . [He] became deeply involved in Ottomanism and served under Turkish rule both in the bureaucracy and Parliament until the end of World War I, before he suddenly found himself drawn ... into Arab nationalist activities and tried to defend an ideology to which he had been opposed earlier. To him Ottomanism was a form of Islamic nationalism in which Turks and Arabs could collaborate to maintain the unity of Islamic lands under the banner of the Caliphate. He insisted that Islam as an ideology was a much stronger force than Arabism. In his call for Islamic nationalism, to which he was both mentally and emotionally committed, he was able to stir a wide response from Morocco in Northwest Africa to the Arabian Peninsula. ... But his attachment to Islam was essentially negative Eto arouse Muslim feeling against European domination Erather than positive, to reform Islam and Islamic ways of life as a means to strengthen Islam from within. . . . As Cleveland pointed out, [Arslan] was "neither an original nor a reflective theological thinker ... "(p. 115); "Arslan was more agitator than theoretician, and his intellectual contributions to inter-war thought were tempered by his political involvement" (p. 130). This is an important work on the life of an influential Arab writer, political activist, and Muslim propagandist and journalist. It is meticulous, lucid, and well-researched, for which Professor Cleveland is to be congratulated. [Maiid Khadduri. International Journal of Middle East Studies 20, no. 1 (February 1988): 133-34.]

Destani, B. (ed.). Minorities in the Middle East: Druze Communities 1840-1974. Archive Editions, 2006. 2244 pages, 4 volumes: Volume 1: 1840-1854;

Volume 2: 1855-1866.; Volume 3: 1866-1926; Volume 4: 1927-1974.

These four volumes establish the historical record from original political despatches, correspondence and reports which describe events affecting the Druzes of Syria and Lebanon from the time of Ottoman rule under Bashir II, through the Turkish rule of Lebanon under the double kaimakamship, the 1860 massacre of the Christians and the tensions in the aftermath that persisted through the occupation of Lebanon by the French and British during the First World War. The documents record the period of the French Mandate and events leading up to the Druze Rebellion of 1925, as well as the history of the Druzes up to and during the Second World War, observing the power struggles of the leading families. More recent papers note the Druze position with regards to Palestine and Israel, and the position of Druze communities within Israel.

Dhabyan, Sami. الحركة الوطنية اللبنانية: الماضي والحاضر والمستقبل من The Lebanese National Movement: The past, present صنظور استراتيجي and future from a strategic perspective. Beirut: Dar al-Masira, 1977.

This is a political survey of the rise of the leftist Lebanese National Movement (LNM). The first section reviews the social and political background of the attempts at political reform in Lebanon by leftist parties, highlighting their inability to translate their popular support into a successful reform program. In section two, the author deals with the strategies adopted by the left in its struggle with the political establishment, stressing the contradictions within Lebanese society from the historical, economic and sectarian points of view. The last section is a detailed survey of the political and military history of 19 left-wing political parties that joined together and created the LNM and fought under its banner as Al-Quwwat al-Mushtaraka (The Joint Forces) during the 1975-1976period of the civil war. In this section, the author has an extensive treatment of the Druze-dominated Progressive Socialist Party (PSP) led by Kamal Junblat (129-158). The political reform program of the LNM is given verbatim, as an appendix.

Dhib, Muhammad (al-). حكاية شعب أراد الحياة The story of a people striving for life. Beirut: Dar al-Farabi, 1993.

This book is more or less a facsimile of the following two books by the same author. However, there is one major difference: here, the author not only narrates the events of the Druze-Maronite civil war in Mount Lebanon, but interjects historical flashbacks from the Fatimid, Crusader, Tanukhid, Ma'nid and Shihabid periods, and even twentieth-century Lebanese history, relating stories of Druze victories against what he sees as Christian treachery and aggression.

Dhib, Muhammad (al-). لوحات الغدر ولوحات الثأر Scenes of treachery and scenes of revenge. Beirut: Dar al-Farabi, 1986.

The second in a series of stories written in a somewhat literary style about the experiences of a number of Druze fighters during the War of the Mountain (1982-1984). Among the most important battles mentioned are the September 1983 occupation and 'liberation' by the Druze forces of Bhamdun, the focal point of the Maronite Lebanese Forces' defensive strategy, and the February 1984 Druze 'liberation' of the al-Shahhar region in a military operation known as Amaliyyat al-Amir al-Sayyid (the Operation of al-Amir al-Sayyid).

Dhib, Muhammad (al-). لوحات من حرب الجبل Scenes from the War of the Mountain. Beirut: Dar al-Farabi, 1985. With an introduction by Fuad Salman.

al-Dhib, a Druze reporter, presents a collection of first-hand accounts from the field and behind front lines during the Israeli invasion of Lebanon and the ensuing civil war (War of the Mountain) between Druze and Maronite. His stories are not confined to his own experiences, but include those of a number of Druze men and women who participated in the battles. In addition, the book gives an idea of what life under seige was like in a number of Druze towns and villages, such as al-Qrayye, Qubbay and Baysur. The book is introduced by a member of the Executive Committee of the Progressive Socialist Party.

Dupont, Marie. Les Druzes. Brussels: Maredsous, 1994. 217p. Fils d'Abraham, Editions Brepols.

In the introduction, Dupont describes the Druze historical contribution to Lebanon as forming the 'cornerstone' of the modern state. Her work examines the history and socio-cultural structure of Druze society, including the doctrine and religious and political organization of the Druze. The work includes a bibliography with commentary, a glossary of Arabic and Druze terms, genealogical diagrams of influential Druze families and maps showing main Druze areas in Syria, Lebanon and Israel. It also contains illustrations, some coloured.

Fawaz, Leila Tarazi. An occasion for war: civil conflict in Lebanon and

Damascus in 1860. London: Centre for Lebanese Studies, 1994. [Maps. Illustrated.]

The 1860 conflict in Lebanon originated in Druze-Maronite clashes in the Mount Lebanon region that spread to adjacent areas. Ultimately, because of rumours of strife and an influx of refugees, violence flared in Damascus: Muslim assaults on Christians resulted in several thousand deaths. Fawaz places this local/regional conflict within the broader context of diminished Ottoman authority confronted by Great Power interests, as the British and the French sought to protect Druze and Maronite client populations. She carefully notes the historical and economic background. Christian equality with Muslims originated under Egyptian rule in the 1830s. Muslims resented European mercantile inroads that used local Christians as agents to the detriment of Muslim resulted in attacks on wealthyŒbut not poorŒChristian quarters in Damascus. Fawaz situates her study with an eve to the recent civil war in Lebanon and argues that intercommunal tolerance may require the guarantees of larger powers, which were lacking in 1860 and fell victim to Cold War rivalries in the 1970s. Extremely detailed and well researched. [C. D. Smith, Choice 32, nos. 11-12 (July/August 1995): 1783.]

Firro, Kais M. History of the Druzes. Leiden and New York: E. J. Brill, 1992. Handbook of Oriental Studies, Part 1: Middle East, no. 9. [Maps.] Except for an introductory chapter on the origins and early history of the Druze faith and a brief concluding chapter on the present circumstances of the Druzes, Firro (Univ. of Haifa) confines his attention to the 19th and first half of the 20th centuries. He minutely examines the political history of this ethnoreligious community during the late Ottoman and the Mandatory

periods in Syria, Lebanon, and Palestine. Firro recounts the decline of the Druzes in Lebanon, their migration toward Jabal ad-Duruz, and the development of the resettled community in Syria between the Maronite-Druze conflict of 1860 and the outbreak of WWI. The author explores the ways in which Druze factionalism-entailed in the political quarrels among leading families-was exploited by the Ottomans and by the increasingly intrusive British and French. Several precise maps pinpoint the demographic shifts of the Druze populations. Other important themes embedded in this very detailed study are the role of the Druzes in Arab nationalist movements and the Zionist encouragement of Druze particularism to ensure their neutrality in the struggle between Jews and Arabs for Palestine. [L. M. Lewis, Choice 30, no. 9 (May 1993): 1532.]

Firro. Kais M. The Druzes in the Jewish State. Social. Economic and Political Studies of the Middle East and Asia: Leiden and Boston EJ. Brill. 1999. 266p. The Druze[s] are a mystical mysterious minority in Israel, Arabic speaking, they are neither Muslim nor Christian. Moreover, they are geographically divided among Israel, Lebanon, and Syria. So who are the Druzes? Firro, author of A History of the Druzes, presents a brief history and introduction to this people and their existence in Israel. The book examines the complexity of new identities that have emerged among Israeli Druzelsl in the wake of Israeli nation-building policies and countervailing Palestinian Arab nationalism. Firro follows the challenge to Druze traditional political/religious leadership in recent years, the modernization of Israeli-born Druze[s], and voting patterns. Still, the Druzes remain valuable allies to the Zionist leadership of Israel. Did they get a raw deal, even a betrayal from the Israelis? Firro contends that they did. Although the author's argumentation is supported by detailed research, it is political in nature and critical of Israeli policies. For the careful reader the book raises serious questions about nation-building in a democratic society. [S. Bowman, Choice 37, no. 1 (September 1999): 212.1

Halabi, Rafiq. The West Bank Story. Ina Friedman. New York: Helen & Kurt Wolff, 1982. [289 pages. Also exists in a Hebrew translation.]

Although Halabi's book ends with an attempt to depict the Israeli

occupation of the West Bank as benevolent, its beginning focuses upon his own upbringing among Jewish Israeli children and the attitude and policies of the Israeli authorities toward the Druze minority. In these first three chapters, he clearly depicts the fragile relationship between Druze communal identity and the Zionist state despite his accommodating and even deferential approach.

Hamad, Muhammad 'Abdul-Hamid (al-). صابئة حرّان والتوحيد الدرزي The Sabaeans of Harran and Druze Tawhid. Damascus: Dar al-Tali'a al-Jadida, 1999.

In the first section of this book, the author attempts to trace the origin of the Druze Tawhid philosophy to the Sabaeans (Sabi'a) of Harran in Syria. According to the author, the Sabaeans were instrumental in introducing Greek philosophy to the Islamic societies of the Middle East, serving as the medium through which the philosophical concepts of Pythagoras and Plotinus came in contact with and influenced Islamic thought and philosophy during the age of al-Hakim bi-Amrillah. The second section treats the life and thought of al-Hakim, whom the author portrays as a good and benevolent ruler who rejected the attempts of his followers to deify him. In the third section, the major tenets of the Druze doctrine are discussed and an attempt is made to trace them to the thought of the Hellenized Syriac philosopher John Philobonus Grammaticus, who is referred to in the Arabic sources as Yahya al-Nahawi.

Hichi, Selim Hassan. دروز بيروت: تاريخهم ومآسيهم The Druze of Beirut: their history and tragedies. Beirut: Dar Lahd Khater, 1985.

This work is an historical survey of the Druze families which have settled in

Beirut since the tenth century AD. It begins with a rather long section in which the author discusses his own personal life as an example of the injustice done to the Druze of Beirut by their fellow Druze in Mount Lebanon. The following chapters deal with the history of the Beiruti Druze within the context of the general history of Beirut and the region. The last section of the book is a biographical account and genealogy of all of the Druze families in Beirut.

Hichi, Selim Hassan. علي باشا جنبلاط Ali Pasha Junblat. Beirut: Dar Lahd Khater, 1986.

This historical survey of the political fortunes of the Kurdish Junblat (Janbulad) clan in south-eastern Anatolia during the sixteenth and seventeenth centuries mainly concentrates upon the revolt of 'Ali Basha Junblat against the Ottoman Empire, his alliance with Fakhr al-Din Man and the eventual relocation of the Junblat clan to the Shuf mountain in Lebanon.

Hitti, Philip Khuri. The Origins of the Druze People and Religion: W Extracts from Their Sacred Writings. New York: Columbia University Press, 1928. 80p. [Map. Facsimile. viii + 80 pages.]

... [Philip Hitti] attempts a new solution of the problem of the origin of the

sect. He stresses the recorded transportations and emigrations of Persian and Mesopotamian tribes into the Lebanon. The presence of this element would explain the ease by which the notion of the Divine Hakim gained credence in the Lebanon, as it is evidently akin to the gnosis of the eastern Shiite sectaries. To be sure, it must be added, the Mountain has always been the gathering place of peculiar sectsŒwe may compare the Christian Maronites and the Matawilah, and odd elements of ancient paganism and Christian Gnosticism may have taken refuge in those hills and contributed to the strange genius of its folk. It has remained an interesting if sluggish backwater in this history of religion. The author pursues the history of the Druzes in four chapters, and in the remaining three gives an exposé of their religious tenets. Of particular value and interest are the six appendices presenting extracts from their sacred writings. Although a short book, it is a compendious and illuminating treatment of the subject and contributes much to the understanding of one of the riddles of the Orient. [James A. Montgomery, Journal of the American Oriental Society 50 (1930): 263.]

Hood, Kathleen. Music in Druze Life: Ritual, Values and Performance Practice. London: The Druze Heritage Foundation, 2007.

The rich and varied folklore of the Druze has long attracted specialist scholarly interest. The present publication by the Druze Heritage Foundation, however, Music in Druze Life: Ritual, Values and Performance Practice, is the first to document the role music has played – and continues to play – as an accompaniment to traditional life and an important factor in the shaping of the Druze lifestyle. When the Druze Heritage Foundation came up with the idea of this book, I contacted my friend Dr. Ali Jihad Racy, Professor of Eth nomusicology at the University of California at Los Angeles, seeking his guidance and opinion. He was very encouraging and was kind enough to recommend Dr. Kathleen Hood to research and write a book offering at the same time his valuable assistance. Music in Druze Life ... and the accompanying CD is the product of this distinguished collaboration, and the Druze Heritage Foundation is indebted to Professor Racy and Dr. Hood for the immense effort and knowledge that has produced an outstandingly beautiful work.

Husayn, Muhammad Kamil. الرسالة الواعظة The epistle of admonition. n.p.: 1952. This contains an epistle from the Ismaili Fatimid da'i, Hamid al-Din al-Kirmani, Admonishing the Druze.

Husayn, Muhammad Kamil. طائفة الدروز The Druze sect. Cairo: Dar al-Ma'arif, 1962.

This book is divided into three sections, the first of which contains a brief account of the racial origins of the Druze, genealogies for a number of prominent Druze families and a description of religious stratification within the Druze community. The second section deals exclusively with al-Hakim bi Amrillah and discusses the issue of his deification, his status for the Shi'I Fatimids, as seen through a letter (Risalat mabasim al-bisharat bil-Imam alakim bi-Amrillah, or Epistle of the joyous annunciations on [the coming of] the Imam al-Hakim bi-Amrillah) by the chief Isma'ili propagandist (da'I aldu'at), Ahmad Hamid al-Din al-Kirmani, and the rise of the new call for the deification of al-arguing that the Fatimid Isma'ili Shi'I dogma is the basis for all Druze religious beliefs, and lists a number of Druze letters with brief explanations.

[vi + 122 pages.] In 1976-1977, as the first stage of Lebanon's extended civil war ended, French journalist Philippe Lapousterie engaged Druze leader Kamal Junblat in lengthy conversations that were not published until 1978, a year after Junblat's assassination. In this translation of the French original, Junblat considers his country's past and its future, the various actors involved in the conflict such as the Maronites, Palestinians and Syrians and the events of the early war period. Much of what he had to say continues to be relevant.

Khoury, Shakir (al-). The anthology of delights. n.p.: n.d.. These are the memoirs of Dr. Shakir al-Khuri, one of Mount Lebanon's more prominent nineteenth-century physicians. Originally from the Jezzine region of Mount Lebanon, an area traditionally governed by the Junblat family, the author studied in Mukhtara, the capital of the Junblats. This work is very useful for its account of the rural life, customs and politics of Mount Lebanon during the second half of the nineteenth century.

Khuri, Fuad. Being *A Druze*. London: Druze Heritage Foundation, 2004. 295.pages.

Khuri's deep insights into Druze culture are brought together with his comprehensive understanding with of Arab culture and Islam in this one easy-to-read book. He sees the source of the practice of religion as lying within its definition, whether it is a public, open policy of worship or a private, secretive one. The Druze practices the same Arab norms of culture. but express them differently. In attempting to achieve divine manifestation, the Druze have developed not only a unique style of living and speaking continuously practicing self-discipline, austerity and a strict behavioral code. Solidarity among the Druze is displayed through their strong belief in reincarnation and in the moderating role played by the religious sheikhs in conflict resolution. This feeling of brotherhood through reincarnation cements social relationships between people and creates equality within the community. Land to the Druze is a marker of identity: "in order to protect your honour, you must have land and, in order to protect your land, you must have religion". Khuri describes the strong in-group feeling within the Druze, even in immigrant populations, and their deep attachment to ethnicity and unbending solidarity, always standing firmly by the power elite in times of crisis. The Druze learns their culture and associated rituals as connected with the cycle of life. "He or she is always under the watchful eye of the community from birth until death and, then, rebirth".

Khuri, Fuad. Imams and Emirs: State, Religion and Sects in Islam. London: Al-Saqi, 1990. [270 pages.]

Sectarian Islam has attracted a good deal of attention over the last decade among historians, political scientists, and students of comparative religion. Although Imami Shiism has so far received the lion's share of attention, other branches of sectarian Islam have also begun to attract scholarly interest. The present study represents a useful contribution to the study of sectarian Islam in at least two respects: 1) in contrast to earlier studies, it attempts to look at sectarian Islam (within the Arab world) as a whole and from the vantage point of am comparative perspective; and 2) it makes use of new material drawn from extensive fieldwork. The 17 chapters are grouped into three sections. Chapters 2 to 6seek to define the relationship between

the various sects [including the Druze] and majoritarian (Sunni) Islam, on the one hand, and their respective attitudes to, and relationship with, the state, on the other. Chapters 7 to 11 examine in some detail the ideological orientation of the individual sects, and chapters 12 to 17 are devoted to a comparative analysis of the organisational structure of the sects. In addition to the endnotes, the work also contains a glossary of technical terms, a modest bibliography (including some of the more recent studies in Arabic), an index on concepts and an index of proper names. Contrary to the title, the study is limited to sects within the Arab world and does not take up the question of sectarian Islam as a whole. Despite its limitations, Khuri's study provides interesting new insight into the diversity and complexity of Middle East Islam. [M. Swartz, Choice 29, no. 1 (September 1991): 122.]

This book is based upon a number of sources, the most important being the sijills (court reports) of the Druze Courts in Israel and Lebanon as well as the author's conversations with Druze qadis and other religious leaders. The book deals with the major areas of family law-capacity to marry and marriage formalities, divorce (almost one third of the book is devoted thereto), maintenance, custody and guardianship, and succession. The chapters follow a pattern which is loosely similar. They begin with statements of the legal position based upon the sources of law; this itself is no simple matter since there are a wide variety of different legal sources at play. The chapters each conclude with a comparison between the law in the sources and the opinions of the qadis. Here the author draws particularly on

the sijills and on his conversations with the qadis to contrast the law in theory with that in practice. For an Islamic lawyer the book is of interest because it contains the legal rules of yet another member of the Islamic family of legal systems. . . . From the point of view of the comparative lawyer, the book is interesting in a number of respects. Firstly, it shows the interaction of several different legal sources-Israeli, Lebanese and Syrian as well as the opinions of Druze jurists- which form the basis for the rules of Druze law. ... A second point of interest is the apparent conflict between the rules of law and a community in transition; in particular, the book charts the strains imposed on the law by the break-up of the traditional family structure. The book is somewhat heavy reading, but its main value lies as a source of information on a previously little explored legal system. [Philip Baker, Bulletin of the School of Oriental and African Studies 67, pt. 3, (1984): 559.]

Makarem, Sami Nasib. *The Druze Faith*. Delmar: NY: Caravan Books, 1974. [xi + 153 pages.]

Commencing with the origins of the Druze faith as an offshoot of Fatamid Isma'ilism, Makarem traces its spread from Egypt to the mountains of the Syrian coast and attributes the doctrine's success to the zeal of Nashtakin al-Darazi, a missionary later recalled and executed for corrupting the teachings of the creed's founder, Hamza b.Ali. Although Makarem states that al-Darazi's successors re-established Hamza's doctrines, he does not explain why al-Darazi's name was nonetheless given to the Druze. The next four chapters interpret the articles of the Druze faith, especially those concerning the Oneness, Will and Divine Wisdom of God. Also included are six appendices listing the Fatimid imams, significant dates, translations of prayers, a document on Druze family law and other data.

Shaykh Ali Faris, may God be الثاني عشر للهجرة الثامن عشر للميلاد pleased with him: A saint from the twelfth century of the Hijra, [or] the eighteenth century AD). al-Mukhtarah, Lebanon: Al-Markaz al-watani lil-maalumat wal- dirasat and al-Dar al-taqaddumiyya, 1990. This book was produced by the aforementioned publishing houses in collaboration with al-Majlis al-Durzi lil-buhuth wal-inma. It is a survey of the life of a Palestinian Druze Sufi ascetic who lived for most o his life, and eventually died, in the Druze village of Julis in Galilee, where his tomb has become a shrine regularly visited by Druze believers. The better part of the book is an analysis of the Sufi poetry attributed to the shaykh.

Mascle, J. Le Djebel Druze. Beirut: Les Lettres Françaises, 1944. [Map (fold.) Illustrated. Ix + 334 pages.]

The first edition of this volume appeared in January 1936, and was exhausted within three months. A short introductory chapter gives a brief sketch of the successive migrations of the Druzes to this region of Central Syria (better known until recently as the Houran), a description of the physical geography of the region, and an account of its natural resources. Chapter Two deals with the Safaitic and the Nabatean inscriptions and edifices identified with the region. The next two chapters are devoted to the monuments of the Greco-Roman and Byzantine periods respectively. . . . The last chapter gives a detailed account of the present condition of the population of the Jabal Druze. The different religious groups, both Muslim and Christian, receive a separate and detailed treatment. Finally, ten carefully planned itineraries are mapped out for the tourist. A brief geographical index and a large scale map complete the work. The volume is copiously illustrated with thirty-two full page plates and some additional figures in the text. . . . M. l'Abbe Mascle, Army Chaplain to the French troops in the Levant and Government Director of Antiquities for the Jabal Druze, has had, in addition to this scholarly and scientific background, the enviable advantage of extensive and prolonged personal contact with the district he describes and with its peoples. Throughout the work an attempt is made to bring the high points of the archaeological history of the region up to date. Not the least interesting chapter of the book is that dealing with the present situation in the Jabal, and the description of its people with an account of some of their ancient religious rites. For the serious student, the book lacks fuller documentation and a general index, but these faults are more than counterbalanced by the rich contributions growing out of the author's own activities and observations. This study was originally a dissertation presented for a diploma from the Institute of Social Sciences at the Lebanese University. The author studied

the level of participation of Druze women in military activity during the different stages of the Lebanese civil war. Their participation was limited, for the most part, to indirect military service in such fields of support as medical care, food supply and radio communications. However, the book also deals with a unique incident in which an independent group of women set up a weapons training course on their own and proceeded to train women volunteers, showing how the conservative male-dominated Druze society reacted to, and ultimately crushed, this experiment.

Obeid, Anis I. The Druze & Their Faith in Tawhid (Contemporary Issues in the Middle East). Syracuse University Press, 2006.

An informed and thorough treatment of Druze history and beliefs that helps elucidate this religion's enigmatic religious identity. As a small sect that emerged from Islam over a thousand years ago, the Druze religion and society has long been cloaked in a tradition of secrecy. Veiled from the outside world, the religious tenets have been vulnerable to distortion, misunderstanding, and misrepresentation. In this book Dr. Anis Obeid, a Druze layman, provides a penetrating analysis of Druze scriptures and beliefs (Tawhid). Presenting a chronological narrative of the foundation and development of the faith, he explains the historical conditions and religious rationale behind this closed religion. The Druze faith is the product of

Abrahamic monotheism as it coalesced with other philosophies, belief systems, and political structures of the West and the East and, as Obeid maintains, should be recognized for its core monotheism, and not fundamentally different from Judaism, Christianity, or Islam. He argues convincingly, with examples and translations from the Druze scriptures, only now accessible to a non-initiate public, that Tawhid is a progressive and dynamic spiritual process based on freedom of choice. This rich exploration of their faith, the author's appeal for a sincere cultural dialogue will resonate with a wide audience in the West and in the Middle East.

Al-Safarjalani provides a detailed historical survey of the Great Syrian Revolt (1925-1927) written from an Arab nationalist point of view. The book starts with introductions to the subject by prominent Syrian political leaders such as Sultan Basha al-Atrash and 'Abdul-Rahman al-Shahbandar. The material proper starts with an analysis of the political, economic and military situation in Syria after its occupation by the French mandatory forces in 1920. The section that follows deals with the start of the revolt in Jabal al-Duruz and then recounts in detail the many military engagements between the French army and the Druze insurgents, as well as the spread of the revolt to Damascus and Hama. After discussing French attempts to negotiate a settlement with Sultan Basha al-Atrash, the commanding general of the forces of the Syrian Revolt, and their ultimate failure, the author examines the spread of the revolt into parts of Lebanon and the French response. The last section of the book deals with the collapse of the revolt in Jabal al-Duruz and the withdrawal of its leaders to Jordan; it also provides a list of Arab fighters killed in the revolt.

Schenk, Bernadette. Kamal Gunbulat: Das arabisch-islamische Erbe und die Rolle der Drusen in seiner Konzeption der libanesischen Geschichte. Berlin: Klaus Schwarz Verlag, 1994. Islamkundliche Untersuchungen, no. 176. [225 pages.]

Schenk examines the modern history of the Druze community in Lebanon and offers a short and sympathetic political biography of the Druze leader before proceeding to her main subject: an investigation of the historical and political roles assigned by Kamal Junblat (1917-1977) to the Druze and the Arab-Islamic legacy. Although her introduction suggests that Junblat's thought underwent no significant change throughout his career, the evidence presented later in the book contradicts this assertion. In an effort to defend Druze interests in the face of changing circumstances, Junblat attempted to ally the Druze to other confessional communities. However, his initiatives in the direction of the Sunnis led him to aggrandize the imara and Lebanese particularism, stances which necessitated a certain degree of ideological agility once he took up pan-Arabism. Particularly difficult was the task of explaining why Lebanon should remain a separate state despite the fact that

it was Arab-Islamic in character. This study is particularly useful for its contribution to the understanding of political rhetoric in Lebanon.

Stendel, Ori. The Minorities in Israel: Trends in the Development of the Arab and Druze Communities, 1948-1973. Jerusalem: Israel Economist, 1973. [Illustrated. 210 pages. Hebrew title: Miutim be-Yisrael.]

The book consists of 12 chapters, each referring to a different problem of the minority groups. [It] begins with a review of the demographic development of the minority population, which has increased from 150,000 people in 1948 to approximately half a million in 1972. In the next chapter the author discusses the various differences between the Muslims and the Druze, who are mainly villagers, on the one hand, and Christians who live in the cities on the other. The author shows that the minority population is not of one piece, but is very complex and composed of religious sub-groups and sects; these

concentrate in relatively distinct geographic centres. The economic and social development is reviewed in the fifth and sixth chapters. These explain the process, by which a population shifts from agriculture to nongeographical occupations, and the profound changes in agriculture that occur in its wake. In other chapters, the author reviews the various political groups, the traditional family groups, and the new groups formed on an ideological basis. ... The book ends with a description of the legal basis for the activities of minority groups in Israel, a basis which offers them equal rights. There is also, for the first time, a description of the changes in the population since 1967, when a sense of self-identity has grown and connections have expanded with additional groups, mainly on the West Bank, from which they had been separated from 1948 until 1967. The book combines many facts and changes in the minority population in Israel, demonstrating them by data which show us the development during the period under discussion, and a few photographs which illustrate the facts. As the title implies, this is an historical survey of the town of Hasbayya and its surroundings in Wadi al-Taym in southern Lebanon. The book begins with a brief history of Hasbayya from Biblical times until the Crusades. The second section deals with the histroy of the Druze da'wa and the settlement of the Druze in the region and pays particular attention to the rise and fall of the schismatic movement that appeared within the community in the early years of its existence. The third section discusses the rise of the Sunni Shihab family that came to rule the Wadi al-Taym region and eventually Mount Lebanon until 1840. The sections that follow deal with the effects of the 1860 sectarian strife in the region, the years of the First World War and the 1925 Druze revolt against French mandatory authorities in Syria and Lebanon. The last part of the book is a brief socio-historical entry about all of the villages in the region with some concentration on the history of religious shrines and of crafts.

Rashid Tali', a native of the Shuf region in Mount Lebanon, was one of the more prominent Druze in the administrative apparatus of the Ottoman Empire during the late nineteenth and early twentieth centuries. After serving as qaimmaqam (governor) of several districts in the vilayet of Syria, he was elected to represent the district of Houran in the Ottoman parliament. After 1918, he collaborated with the Sharifian government in Syria and, in 1921, was chosen by Abdullah ibn al-Husayn to be the first prime minister of the independent state of Transjordan. After resigning his post, he joined the Druze revolt in 1925 and died before its end

Tali', Amin Muhammad. مشيخة العقل والقضاء المذهبي الدرزي عبر التاريخ، مجموعة قوانين الأحوال الشخصية وتنظيم القضاء المذهبي الدرزي The institution of shaykh al-aql and the Druze religious المعمول بها حاليا court system across history, containing a compendium of the laws of personal statute and of the organization of the Druze religious courts currently in application. Beirut: Al-Matba'at al-Antuniyya, 1971.

This book is a collection of the laws that regulate the civil life of the Druze in Lebanon, including the law of personal statute, the law of the Druze religious court system, the law organizing the Druze Council and the law regulating the election of the shaykh al-aql. The second part of the book is a historical survey of the rise and development of the institution of shaykh al-aql and the religious court system, with a special section devoted to similar institutions among Syrian and Palestinian Druze communities.

This work is a very detailed study of the Druze Personal Statute Law passed in Lebanon on 24 February 1948. The issues covered are marriage, dowry, parental custody, guardianship, divorce and inheritance. The last sections deal with the laws that regulate the Druze waqf lands and give several lists of statistics taken from the registers of the religious courts.

Taqiy al-Din, Halim. قضاء الموحدين الدروز في ماضيه وحاضره The jurisprudence of the Druze Muwahidun in its past and present forms. Kafar Matta, Lebanon: Matabi Lubnan al-Jadid, 1979.

A look into the past and present situation of the Druze religious court system. The first sections deal with the religious courts under the Tanukhid, Manid and Shihabid emirates (1350-1840 AD), followed by a section on the period of the Mutasarrifiyya (1860-1918 AD). The next section lists all of the Druze religious judges in Lebanon since the period of the French Mandate. The final sections are of a more technical nature and deal with the organization of the court system and different court rulings.

حراسات في تماريخ للشوف بللوث للاقل Documentary studies into the history of the Shuf region. n.p.: Dar Isharat lil-Tiba'a wal-Nashr, 1999.

This work is a compendium of documents that shed light on the socio-economic history of the Shuf region in Mount Lebanon during the nineteenth and twentieth centuries. The first section contains a number of documents of a general nature. In section two, road tax receipts and food ration cards are utilized to recreate the demography of B'aqlin between the years 1931 and 1941. Section three outlines the history and evolution of the tax collection system between 1841 and 1940. Section four is an historical survey of the Ottoman public schools and curricula in the Shuf region between 1861 and 1914. Section five includes the accounting registers of the waqf of al-Dawudiyya school in 'Abay (1873-1889). At the end of the book, there are a number of addenda relating to the aforesaid school.

الريفيون والمؤسسات الاقطاعية عند الدروز والموارنة في County people and the feudal ١٩١٤ لبنان: من القرن السابع عشر حتى institutions for the Druze and maronites in Lebanon: from the 17th century till 1914.

Touma, Toufic. Paysans et institutions féodales chez les Druses et les maronites du Liban du XVIIème siècle à 1914. Beirut: Publications de l'Université Libanaise, Section des Etudes Historiques, 1971. 2 vols. [Illustrated. 862 pages.]

This is a history of Mount Lebanon with a special focus on the nineteenth century, when the balance of power between Druze and Maronite was changing. It describes the crises that led to the massacres of 1860 and the institution of the mutasarrifiyya. The work includes a number of chapters focusing on the structure of feudal power, the decline of feudalism and the instability caused by the Egyptian occupation of 1831, the crisis of social and institutional transformation, and the evolution of local institutions, including the Maronite Church.

Tyan, Ferdinand [Prince]. France et Liban: Défense des intérêts français en Syrie. Paris: Perrin et cie., 1917. [94 pages.]

This is an interesting monograph on France and Lebanon, with the author in effect demanding the imposition of a French mandate. Part of the monograph provides a description of the Maronites and the Druze.

This study attempts, through an analysis of the writings of Shakib Arslan, to highlight his attitudes toward Western civilization, Christian missionary activity and Zionism. The book also contains a list of all of the published and unpublished works of Arslan, as well as the tributes of a number of Arab intellectuals upon his death in 1946. The last section of the book reproduces the details of the forgery case that aimed at defaming Arslan in 1935 by linking him to Fascist Italy.

Zayn al-Din, 'Abdallah Yusuf. كتاب مفتوح: الرد على كتاب أنيس منصور An open book: Reply to the writer Anis Mansur. Damascus: Matba'at Zayd bin Thabit, [?1990s].

As the title suggests, this book was written in response to an article by Egyptian writer Anis Mansur in the Egyptian daily newspaper, Al-Ahram, on 4 October 1989. In his article, Mansur tried to answer a question presented to him about the origin and beliefs of the Druze, portraying the Druze in an extremely negative way. The book begins by presenting Mansur's article and then listing some of the responses it received in the Egyptian press. Zayn al-Din then lists the fatwas issued by al-Azhar, which clearly considered the Druze to be Muslims, and also discusses the histories of several prominent Druze families, the concepts of Druze Sufi Tawhid and the life of al-Hakim bi-Amrillah.

Amnesty International and the Israeli Attorney General, and secondary sources.]

This article relies heavily on an Amnesty International report on the use of Town Arrest Orders since 1980. Imposed by Israeli regional military commanders, the Town Arrest Orders have been directed against Palestinians and Druze in Israel and the occupied Territories. The article analyzes the system's legal background, outlines representations by amnesty International to Israel and the latter's resposes, and presents four case-studies.

Abraham, Antoine J. "Lebanese Communal Relations." Muslim World 67, no. 2 (1977): pp. 91-105.

Here Abraham surveys the Maronite-Druze conflicy in Mount Lebanon, 1840-1860. The conflicy was an outgrowth of the Maronite Christian independence movement directed against the Druze and Ottoman-Turks. The civil war was not therefore a religious war, except in Damascus where it spread and where the population was anti-christian. The movement culminated with the 1859-60 massacre and defeat of the Christians by the Druzes. Who were aided by the Turks. French intervention on behalf of the Maronites did not help Maronite national movement since France was restricted n 1860 by Great Britain who did not want the Ottoman Empire dismembered. But European intervention pressured the Turks to treat the Maronites more justly. [HA]

Abraham, Antoine J. "The Lebanon War: In Retrospect and Prospect." Journal of Third World Studies 11, no. 2 (Fall 1994), pp. 117-150.

This article outlines five phases in the Lebanese civil war from April 1975, through the peace of December 1985, to January 1993, with particular emphasis on the critical role of the Shi'a and Druze communities in the conflict.

Abu Husayn, 'Abdul-Rahim. "The Korkmaz Question: A Maronite Historian's Plea for Ma'nid Legitimacy." al-Abhath (Beirut) 34 (1986), pp. 3-11.

The earliest history of the Ma'an family in the 16th century is by the Maronite patriarch Istifan al-Duwayhi, who started writing his chronicle in 1688. The Ma'ans were Druze chiefs in southern Lebanon and the Maronites prospered under their rule. Duwayhi's omissions and fabrications concerning Korkmaz Ma'an, predecessor of Fakhr al-Din, who is regarded as the father of modern Lebanon, were a deliberate attempt to legitimize the family's hold on power. [HA]

Abu Husayn, 'Abdul-Rahim. "The Ottoman Invasion of the Shuf in 1585: A Reconsideration." al-Abhath (Beirut) 33 (1985), pp. 13-21.

The 1585 Ottoman expedition against the Druze was a critical point in the history of Ottoman Syria. The expedition did not begin as a retaliatory act for a Druze attack on an Ottoman tribute caravan (known as the plunder of Jun Akkar), but was rather the result of more complex Ottoman motives, the

disarming of the Druze and the collection of overdue taxes. The Jun Akkar event in fact never took place. [HA]

Abu Nimr, Mohammed. "Conflict-Resolution Approaches: Western and Middle-Eastern Lessons and Possibilities." *American Journal of Economics and Sociology* 55, no. 1 (January 1996), pp. 35-52.

After conducting two case-studies to compare Western and Middle Eastern processes of conflict resolution, A bu-Nimr discovers that divergent assumptions underlie each approach. The first case-study describes the process in the context of a dispute between Christians and Druze which was mediated by Muslims in an Israeli village. The second describes the process in a Cleveland, Ohio racial conflict. After identifying the "distinctive cultural and professional assumptions" underlying both processes, the author notes differences in both the third-party roles and the outcomes achieved. He also distinguishes "two sets of principles and contexts, which can be applied interchangeably in both Middle Eastern and Western settings, and those which are unique to each context."

Abu Rabi'a, Salim. "Druze Minority Students Learning Hebrew in Israel: The Relationship of Attitudes, Cultural Background, and Interest of Material to Reading Comprehension in a Second Language." *Journal of Multilingual and Multicultural Development* 17, no. 6 (1996), pp. 415-426. [2 tables.]

An investigation of how Israeli-Druze students' reading comprehension in Hebrew as a second language is related to their attitudes and cultural background and interest in the material. The Druze-a cultural and linguistic Arab minority in Israel-are highly identified with the Israeli-Jewish destiny. Druze students (N=76) were adminis tered attitude questionnaires, individual interest questionnaires, Arab and Jewish cultural stories, and 10 multiple-choice comprehension questions about each story. Results indicate strong positive attitudes towards learning Hebrew and toward Israeli society. However, higher positive interest was found for reading the culturally Arab stories than the culturally Jewish stories, and reading comprehension scores accorded with this preference. It is concluded that cultural familiarity with text and readers' individual interest are related and essential variables in second-language learning. Thus, interest in reading is text-based, a fact that should be considered in minority education. In the case of the Druze minority in Israel, measures beyond self-report questionnaires are needed to

validate the contradictions between feelings and attitudes and reading and interest scores. [SA]

Acquittal of a Druze; arrested for becoming a Christian. The Druzes are not really Moslems; but in consequence of their profession, they have ever been treated as such by the law; and recently, on the ground of this profession, soldiers have been levied from among them, as from the other Moslems.

American Missionaries. "Extracts from a Letter of Mr. Bird, dated July 3, 1835." MH vol. 32 (1836) pp. 91-97.

Schools and Preaching for the Druzes. Mrs. Dodge has a little school of girls, chiefly Druzes. We have preaching every Sabbath, both in English and in Arabic. At the latter service we have had ten or fifteen Druzes present, and among them the young shekhs of the village, with their servants. All the Druzes we converse with say. "This is the truth-this is the way of salvation". Many of them listen with great attention, and receive and read... We are just commencing two schools for Druzes on Mount Lebanon, which we regard as a most interesting experiment

American Missionaries. "Extracts from the Journal of Mr. Lanneau." MH vol. 33 (1837) pp.294-303.

Orders against the Schools - Arab Congregation - A Venerable Druze . A very remarkable Druze high priest, from a distant part of the mountains, attended prayers this evening. He is nearly ninety years old, but looks well, and is very dignified and polite in his deportment, and religious in conversation. He says that he is fifteen years older than the emeer Besheer, and knew him when he possessed nothing but his horse and bed.

American Missionaries. "Extracts from the Journal of Mr. Whiting." MH vol. 28 (1832) pp.106-111.

During my evening I made it my business to inquire of the young Druzes and others of their sect who were present, some things relative to their religion. They could give us no information; for none of the common people or uninitiated have any knowledge of the secret principles and ceremonies of their own religious system. This is reserved as the peculiar privilege of the Aakils or knowing ones...

...My Druze mueleteers were hired for Sidon, and to Sidon they would carry me, though it was my intention to go directly to Helalia, whose distance from Beyroot is just the same as that of Sidon,...

American Missionaries. "General Letter from the Mission, Dated Beyroot, 24th April, 1841." MH vol. 37 (1841) pp. 391-393.

Sidon, two missionaries. This station, like Beyroot, would be a winter residence, and would have especial reference to the Druses, who dwell principally in the mountain district above it, and to whom it furnishes a most convenient access.

American Missionaries. "Joint Communications from Messrs. Bird and Whiting." MH vol. 28 (1832) pp.324-326.

State of the Druzes-Prospects of usefulness among them. The Druzes are a most singular people.... Their whole number is about 70.000. They are divided into two classes, the Akils, or intelligent, the Djahils, or ignorant. The number of the former is about 10.000, of the latter 60.000. The nation of the Druzes, near whom we dwell, exhibits at the present moment, some interesting features. Some time since a Druze woman was in the habit of coming daily to the house of our school teacher, to listen to scripture reading and religious conversation... A man, far advanced in years, and one of the Aakils (initiated into the mysteries) came also often to the house of the teacher, and after hearing and opposing the truth for some time, at length professed to receive it; and as a proof of his sincerity, offered to bring us one of the secret books of his religion, which offer he has since fulfilled.

American Missionaries. "Journal and Letter from Mr. W. M. Thomson." *MH* vol. 39 (1843) pp. 73-76.

If the Druzes continue in power, our prospects are very good.

American Missionaries. "Journal of Mr. Thomson in Northern Syria." MH vol. 37 (1841) pp. 233-242.

Ansaireea visit Aleppo, but there are no Druzes known to the inhabitants of Aleppo. About forty years ago a large number of Druzes fled to Mount Lebanon from a mountain about two days' journey from Aleppo.

American Missionaries. "Journal of Mr. Thomson." MH vol. 41 (1845) pp. 342-349.

Mr. Thomson next gives a full description of the contest waged between the Maronites and Druzes in Abeih itself. The Druzes behaved with a savage courage in this affair.

The Druzes were first disarmed, and then the Christians, from one end of the mountain to the other. Having accomplished this point, the Pasha descended to Beyroot, where he became our neighbor for a few days, and left his subordinate officers to collect in quietness the recruits he wanted from the Druzes.

American Missionaries. "Labors of a Native Assisstant." MH vol. 45 1848) pp. 42-46.

... a druze from Deir el Kamar, a wealthy man. After the salutations, he said, "We wish to have a school at our place". The Sheikhs bought some books,

the Christians took none. Some of these Druzes reverently kissed the New Testament, and put it upon their heads.... the Druzes of the village gathered around me, to the number of fifty men, and requested me to read a little to them from each of my books, as they could not read well. I accordingly read to them, and explained what I read as well as I could. After this they bought some books at a low price. They then consulted together, and came, requesting that we would establish a school. The Druzes then said, "There is no (true) religion but the religion of the English". A large company of the Akkal (initiated Druzes) were present, who all said, "This is a good work". The Judge said, "We wish to have a seminary here to teach the sciences". I replied "If a man wishes to go up to the housetop by stairs, he cannot step at once from the bottom to the top of the stairs, but must go up step by step".

American Missionaries. "Letter from Doct. Van Dyck." MH vol. 43 (1847) p. 83-84.

Application has been made by the brother of the ruling Druze Sheikh of this district for admission into the seminary.

American Missionaries. "Syria: Stations." MH vol. 40 (1844) p. 4.

... a good house has been obtained at Abeih, about fifteen miles south of Beirut, and well situated for a druze station.

American Missionaries. "Syria: Stations." MH vol. 44 (1848) p.5.

It is a settled principle in Mohammedan law, that a Druse is an "infidel", so far as Islamism is concerned, and, therefore, is not liable to a legal prosecution should be become a Christian.

American Missionaries. "Visit of Messrs. Whiting and Hurter to Hasbeiya." MH vol. 42 (1846) pp. 383-387.

The Emir Ahmed protested against all violence, declaring that if anything of that kind were attempted, he would be a Protestant himself, and defend them to the utmost!

Apter A., M. A. Shah I. Iancu H. Abramovitch A. Weizman and S. Tyano. "Cultural-Effects on Eating Attitudes in Israeli Sub-Populations and Hospitalized Anorectics." *Genetic, Social, and General Psychology Monographs* 120, no. 1 (February 1994), pp. 83-99.

We assessed eating attitudes and body image using the Eating Attitudes Test-26 (EAT: Garner and Garfinkel, 1979) and a 17-item body image scale in Israeli Jewish female high school populations in five distinct residential settings (kibbutz, moshav, city, and two different boarding schools); in five ethnically distinct Arab female high school populations (Muslim, Christian, Druze, Circassian, and Bedouin); and in a group of hospitalized adolescent girls with anorexia nervosa. We hypothesized that the attitudes of the adolescent females most exposed to Western body shape ideals and simultaneously undergoing role conflict between traditional and modern images of the female role would most resemble attitudes of anorectics. This was partly supported by the findings.

Ethnic differences also emerged in attitude toward food. All the Arab populations except the Circassian showed strong Western influences in their attitudes toward eating and body image and thus may well be prone to epidemics of anorexia and similar eating disorders in the near future. Kibbutz girls were most similar to the anorectic group. [A]

'Ata, A. W. "Marriage Patterns among the Lebanese Community in Melbourne." Australian and NewZealand Journal of Sociology 16, no. 3 (November 1980), pp. 112-113.

A 141-item structured questionnaire was administered through personal interviews in English or Arabic to one adult member each in 90 Lebanese households in the Melbourne metropolitan area, Australia, in an investigation of marriage patterns. Maronites, Orthodox Christians, Catholics, Muslims, Druzes, and Protestants are compared on attitudes toward marriage. Most marriages are with others of the same ethnic background; 29.3% of marriages were to cousins. [W. H. Stoddard, SA]

Times." al-Abhath (Beirut) 29 (1981), pp. 51-64. [Based on tapu defters, or tax registers, numbered 430, 383, 543 and 177, in the Turkish archives (Istanbul and Ankara), as well as published works in Arabic, English and Turkish. 3 tax tables.]

After Sidon was liberated from the Crusaders in 1291, its fortifications were demolished. In Mamluk and early Ottoman times it was part of the province of Damascus. The Mamluks and the Ottomans sent several expeditions to protect Sunni Sidon from adjacent Shiite and Druze areas. Available Ottoman tax registers show that 16th-century Sidon was divided into three quarters, one of which was Jewish. They also reveal a noticeable increase in Sidon's population during the century. In order to crush local Arab power groups, in 1660 Sidon became the seat of a newprovince. [HA]

Traces the history of the Transjordan Frontier Force. In 1926an imperial mounted force consisting of three squadrons of cavalry and one squadron of camels was established with headquarters in Palestine. The force was never a part of the Arab Legion of Transjordan. The official language of the force was Arabic, but all commands were given in English by British officers. In its early years the force fought in the Franco-Druze conflict and suppressed intertribal raiding. The camel squadron was gradually replaced by a

mechanized squadron. During World War II the force took part in the last mounted cavalry action, in support of the Australian artillery during the Syrian campaign. In 1943 it took part in the anti-locust campaign at Bandar Abbas in Iran and from 1944 to 1948 served on frontier patrol in northern Palestine. The force disbanded in May 1948. The author was an officer of the force. [HA]

Baumgart, Winfried. "Die Europlischen Grossmachte und die Franzsische Intervention in Syrien 1860-61." *Historisches Jahrbuch* (M£nster) 106, no. 2 (1986), pp. 361-385. [Archival sources.]

In this article, Baumgart pursues her interest in nineteenth-century European imperialism by examining socio-political developments in the Middle East in 1860-1861. After the outbreak of violence, first, in Mount Lebanon and, then, in Syria, the Great Powers authorized French military intervention to restore order. However, according to Baumgart, they soon became alarmed as France, which already had a long-standing religious protectorate over the Catholics of geographical Syria, began further initiatives to heighten its political influence in the region. Concerned that this would lead to the dismantling of the Ottoman Empire and disruptive competition among the European Powers for spheres of influence in the Arab East, the Powers obliged France to withdraw its forces. However, this did not occur before France had instituted an administrative system that remained in place until World War I.

Also in Palestine and Israel in the 19th and 20th Centuries, edited by Elie Kedourie and Sylvia Haim, 229-254. London: Cass, 1982. Based on statistics interviews, public documents and secondary Sources

This article traces the spectrum of political attitudes and ideologies, while examining the place of the intellectual in traditional Druze society and the influence of Shaykh Abdallah.

Ben-Dor, Gabriel. "Levanon: Hitporirotah shel Medinah." Lebanon: The destruction of a nation). In Lebanon: War and Reconstruction, edited by Itamar Rabinovich, pp. 35-44. Occasional Papers on the Middle East, no. 4. Haifa: Institute of Middle Eastern Studies, 1982.

Ben-Dor, Gabriel. "The Military in the Politics of Integration and

Innovation: The Case of the Druze Minority in Israel." Asian and African Studies (Jerusalem) 9, no. 3 (1973), pp. 339-369.

Ben-Dor focuses on the efforts of the Israeli army among Israeli Druze in the context of its role as an agent and advocate of social change. Themilitary is considered as a nonpoliticized agent of change on the intracommunal and intercommunal levels, capable of stimulating both modernization and integration.

Bokova, Lenka. "Le traité du 4 mars 1921 et la formation de l'Etat du Djebel Druze sous le mandat français." Revue du Monde Musulman et de la Méditerranée (Aix-en-Provence), nos. 48-49 (1988), pp. 213-222.

The creation of the political entity of Jabal al-Duruz by treaty (4 March 1921) is a prime example of how France's colonial administrators adopted a policy of divide and rule in Syria. Under the treaty and in return for guarantees of eventual independence, Druze chieftains of the plains of Houran recognized the Mandate and ceded the right to delimit frontiers and direct internal Druze affairs.

Bokova, Lenka. "Les Druzes dans la Révolution syrienne, 1925-1927." Guerres Mondiales et Conflits Contemporains (Vendôme) 39, no. 153 (January 1989), pp. 91-104. [Based on French diplomatic archives.]

Armed resistance to French rule in 1925-27 was called the 'Syrian

revolution,' but this was contradictory. The state of Jabal ad-Duruz was at first pacified by French concessions, but Sultan al-Atrache and other Druze chiefs allied themselves with the Syrian nationalist movement without undertaking changes in socio-political realities or reconciling vast differences between Druze particularism and Syrian nationalism. Bowden, Tom. "The Politics of the Arab Rebellion in Palestine, 1936-39." *Middle Eastern Studies* 11, no. 2 (May 1975), pp. 147-174. [Based on British government documents and secondary works. 4 tables. Appendix.]

The Arab guerrillas were politicized, but not sufficiently to convert a peasant, racial, religious, colonial, familial war into a people's revolutionary war. The tribal, parochial orientation of the peasant guerrilla units never coalesced with the politicized Arab youth and townsmen into an articulated revolution, and thus the guerrilla remained "an extension of traditional brigandage," never possessing more than three of the seven elements necessary for a people's revolutionary war. Although they gained control of several large towns and extensive parts of the country, the rebel gangs were led by various soldiers of fortune like the Syrian Fawzi Qawuqii, who had served the Ottomans, the French, the Druze rebels, Ibn Saud, and the Iraqi

Army. Many units were predominantly non-Palestinian Arabs, always in a constant state of formation and re-formation, and their weapons were of Ottoman, Japanese, Russian, English, German or Arab origin. The development of a British "counter-insurgency programme" in 1937-38, coordinating British troops and mandatory police (often Jewish), brought the revolt to an end by 1939. [HA]

Established in 1973 by the Ministry of Education, Israel's gifted education scheme serves an estimated 20,000 students. Included among its programs are special classes in regular scho ols, pull-out programs, afternoon enrichment courses and special science courses offered by colleges and universities, as well as by municipalities, for Jewish, Arab and Druze students.

Cerbella recounts the actions taken by the Algerian emir, Abd el-Qader, in Damascus in 1860 to prevent and mitigate the persecution of the Christian community by the Druze, during which 11,000 Christians were massacred. Emir Abd el-Qader turned his home into a refuge, offering a safe haven for over 4,000 Christians. He also offered a reward to anyone who brought him a Christian safe and sound. The article estimates that the emir's intervention may well have saved over 12,000 lives.

Chevallier, Dominique. "Les cadres sociaux de l'économie agraire dans le Proche-Orient au début du XIXème siècle: Le cas de Mont Liban." Revue Historique (Paris) 239, no.1 (1968), pp. 87-100. [Paper presented at the conference on the economic history of the Near East, School of Oriental and African Studies, University of London, July 1967. Primary and secondary sources.]

Chevallier begins by outlining the geographical conditions of Lebanon's mountain chain, describing agricultural production in detail and examining the political role the Mountain played largely due to its economy in relation to the Sublime Porte. Particular focus is then given to the social framework of Arab, Druze and Maronite society and its effect upon agricultural activity. Since the collective cultivation of land was based upon a system of familial organization, Chevallier next discusses the purposes and effects of

endogamic and exogamic marriage in relation to land ownership. He further explains how village populations were divided into two factions led by two principal families and how social hierarchy was determined by the amount of land owned and the exercise of authority

Clarke, Hyde and R. F. Gould. "Druses and Freemasonry." *Imperial and Asiatic Quarterly Reviewand Oriental and Colonial Record*, [n.s.], no. 8 [nos. 15-16] (July/October 1894), pp. 182-214.

Cobban, Helen. "Lebanon's Chinese Puzzle." Foreign Policy (New York), no. 53 (Winter 1983/84), pp. 34-48.

Writing against the backdrop of the Lebanese civil war, the author contends that struggles between and within Lebanon's seven major religious sects EShia, Sunni and Druze Muslim, and Maronite, Greek Orthodox, Greek Catholic and Armenian Christian Edetermine the course of Lebanese affairs far more than any national Lebanese loyalties. The article calls upon the United States to pave the way for constructive negotiations among the contending parties and upon Lebanese policymakers to consider a settlement in light of the historical socio-political roots of their country's crisis.

Cohen, David. "Une souscription des juifs de France en faveur des chrétiens d'Orient en 1860." Revue d'Histoire Moderne et Contemporaine (Paris) 24 (April/June 1977), pp. 439-454.

Contrary to what one might expect, it was the Jewish community of France that first rallied to support Mount Lebanon's Christian community in 1860, as it came under attack from its Muslim and Druze neighbours. Under the leadership of Adolphe Cremieux, urgent relief was provided in the form of financial support. However, the reaction of the press in France was varied: while the liberal press lavished praise on the Jews for behaving in a more 'Christian' manner than the Catholics, the Catholic press expressed suspicion. The article argues that the reasons behind the Jewish subscription probably lie not only in Cremieux's desire to reconcile France's Jewish and Christian communities, but also in Jewish empathy for religious communities subjected to a religious persecution so familiar from Jewish history.

In this paper the culture-sensitive psychotherapy of a 19-year-old Druze patient with severe anxiety reaction is described. The patient explained his anxiety and his symptoms as stemming from violent death in his former life and subsequent transmigration. The t herapists joined the patient's explanatory model and previous traditional healing, adding hypnotic suggestion which relieved the symptoms. The relationship of patient symptomatology to cultural background, multiple personality disorder, possession and dissociation is discussed. The strategic combination of culture-specific and modern psychiatric approaches is advocated in similar cases. [A]

The author asserts that much of Lebanon's political history has been shaped by the changes that took place in the relationship between Beirut and Mount Lebanon during the course of the nineteenth century. Beirut's ascendancy increased as the two regions became more interdependent and then grew further as ever-increasing numbers of Christians took refuge from the fighting that erupted in Mount Lebanon between Christians and Druze in 1860. Though the Christians may have lost the war militarily, they eventually gained the upper hand politically, thanks to European consular protection and the pressure that the Powers exerted upon the Ottomans.

Florian, V. M. Mikulincer and A. Weller, "Does Culture Affect Perceived Family Dynamics: A Comparison of Arab and Jewish Adolescents in Israel." Journal of Comparative Family Studies 24, no. 2 (Summer 1993), pp. 189-201. Four major cultural dimensions (Triandis, 1990) were utilized to enhance the understanding of cross-cultural differences in perceived family dynamics. Since Israeli Arabs and Jews differ on all these dimensions, different patterns of perceived family dynamics were hypothesized. 880 11th-grade high school students completed Olson et al.'s (1982) FACESII questionnaire and provided demographic data. The r esults show that Israeli Jewish adolescents of Western origin reported the lowest levels of family cohesion, compared to Israeli Jewish youths of Middle Eastern origin, and to Israeli Arab Moslem, Christian and Druze adolescents. This pattern was significant among the boys but not among the girls. Israeli Arab Moslems reported the lowest levels of family adaptability, compared to all the other four groups, without gender differences. The results are discussed within the multidimensional framework of cross-cultural analysis. [A]

Florsheim, P. and D. Gutmann. "Mourning the Loss of Self as Father: A Longitudinal Study of Fatherhood among the Druze." *Psychiatry* 55, no. 2 (May 1992), pp. 160-176.

Individual growth and development depend upon processes of attachment, loss, separation and individuation closely linked to the relationship that continues between parents and chil dren throughout theirlife cycles. However, most literature focuses upon the stages of this relationship during the 'formative years,' ignoring developments in adult children once they leave home to establish their own families or, alternatively, in parents after such moves have taken place. How does the child' attempts to assert his or her independence affect the psychological development of parents? Unlike other studies, Florsheim and Gutmann's work attempts to answer that question, rather than considering the adult child's struggle to disengage and individuate with relation to his or her actual parents or parental substitutes.

Frisch, Hillel. "State Ethnicization and the Crisis of Leadership Succession among Israel's Druze." *Ethnic and Racial Studies* 20, no. 3 (July 1997), pp. 580-59. - Wilson.

States often ethnicize ethnic groups for their own purposes. In doing so, however, they unleash contradictory processes. While the state facilitates the integration of individuals into modern state structures on the basis of personal achievement, it will also traditionalize collective identity by promoting a recognized leader or headman. Over time ethnic reformers will challenge such state ethnicization and attempt to organize the community to achieve more autonomy, using state legislation to achieve these reforms. Paradoxically, this attempt, if successful, will not only encroach upon state power but also curtail the choice of the individual in the ethnic group to define his or her own ethnicity. [This] ... article analyses the Israeli Druze's relationship to the State of Israel and the controversy among the Druze over the group's international organization. It analyses at what point state ethnicization gives way to ethnic autonomy at the expense of state power. and explores its implications on the development of civil society within the ethnic community. The diminution of state ethnicization in a democracy need not necessarily entail the empowerment of the ethnic group but rather the individual who belongs to it. [A] Reprinted by permission of the publisher.

Frisch, Hillel. "The Druze Minority in the Israeli Military: Traditionalizing an Ethnic Policing Role." *Armed Forces and Society* 20, no. 1 (Fall 1993), pp. 51-67.

The recruitment of minority groups to police other minorities is a phenomenon traditionally associated with empires, not the modern nation-state and certainly not a 'democracy.' However, Israel's minority Druze community seems to play the role of policeman with regard to Palestinians in the Occupied Territories. In part, this is due to economic factors, but far more important are Israel's deliberate policies of state-ethnicization aimed at the Druze. Putting aside the instrumental and material benefits to the Druze, this paper looks at the effects of this policing role on Druze-Arab relations. These are a source of deep concern for the Druze community, which tries to resolve its 'conflict of interest' by voting for centre-left parties seeking a resolution to the Israeli-Palestinian conflict on the basis of the 'land for peace' formula, while at the same time demanding greater economic opportunities.

[Based on interviews with Druze, Christian and Moslem Arab readers, and primary and secondary sources.] Al-Yawm (The Day) was a daily Arabic newspaper published by the Mapai (Israel Labor Party) and Histadrut (General Federation of Labor),1948-68. Arab readers accept Israel as a democracy and a geographic entity but not as a Jewish state.[HA]

Gelber, Yoav. "Antecedents of the Jewish-Druze Alliance in Palestine." *Middle Eastern Studies* 28, no. 2 (April 1992), pp. 352-373. [Based on Haganah Archives, Central Zionist Archives, British Foreign Office documents and secondary sources] -Wilson.

Examines contacts between the Jewish colonies in Palestine and Druze villages institutionalized by the Joint Bureau for Arab Affairs, established in 1930 by the Jewish Agency and the Jewish National Council. These attempts to forge links in Palestine also had as an objective the extension of links to Druze communities in Lebanon and Syria. Connections between the two communities were intensified during the Arab revolt from 1936to 1939, and there is evidence of a Druze presence in Arab gangs and involvement in arms smuggling to the Arabs. Druze relationships with the French in Syria and Lebanon and their need for Jewish support in Europe against the French led to various complex relationships and negotiations. Attempts by the Jewish Agency to secure agreements with other minority communities also largely failed. [HA]

Gelber, Yoav. "Beginnings of the Jewish-Druze Alliance, 1930-48." Cathedra (Jerusalem) 60 (1991), pp. 141-181.

Contacts between the National Institutions of the Yishuv and the Druze began in the wake of the 1929 riots and intensified during the 1936-39 disturbances, in which the Palestinian Druze took a neutral stand. The Syrian Druze leader Sultan al-Atrash sought the Jewish Agency's friendship, believing that it might facilitate French permission for his return from exile in Transjordan. The Jewish Agency preferred to deal with the Druze

unofficially through Abba Hushi. Hushi handled several Druze agents, who procured information about Syria and Lebanon and frustrated the mufti's attempts to persuade the Druze to join the Palestinian rebels. Political and intelligence cooperation with the Syrian Druze persisted throughout the first half of World War II and was indirectly financed by British funds. However, after the establishment of the Free French regime in Damascus, Sultan Pasha's need for Jewish assistance diminished. The Druze connection was thereafter limited to Eretz Israel, and Hushi's role was transferred to the intelligence arm of the Haganah. After World War II, the Jewish Agency continued to seek a Jewish-Druze alliance in Eretz Israel, or at least to secure Druze neutrality in the event of another Jewish-Arab confrontation. The first goal was too ambitious as long as the Jewish-Arab struggle was not decided. The Druze feared to throw their lot in with the Jews until the invading Arab armies were checked in July 1948. [HA]

Gelber, Yoav. "Druze and Jews in the War of 1948." *Middle Eastern Studies* 31, no. 2 (April 1995), pp. 229-252. [Based on material in the Haganah Archives, Central Zionist Archives, Israeli State Archives and Israel Defense Force Archives.]

Examines relations between the Palestinian Druze and the Yishuv (the Jewish community in Palestine), which began after the riots of 1929 and improved during the Palestinian rebellion of 1936-39 and the early part of World War II. This was part of the Jewish Agency's attempt to cultivate contacts with minority groups as a counter to Arab hostility, but the process failed because the various groups were rivals and too weakto fulfill Jewish expectations. During the 1948 war, the Druze communitywas cautioned by its leaders to observe strict neutrality, but Syrian and Lebanese Druze joined the Arab Liberation Army, leading to Israeli fearsthat local Druze might join the combatants. However, the movement largely disbanded after the first truce in June-July 1948. Negotiations continued with Palestinian Druze communities, and by the summer of 1948 a Druze presence was within the Israel Defense Forces as part of a minorities unit. [HA]

Gordon, H. E. Kirchhoff and P. Silfen. "Forensic Psychiatry in Israel: Some Comparisons with England and Wales." *Journal of Forensic Psychiatry* 7, no. 1 (May 1996), pp. 92-113.

Israel is a nation of historical and political interest. Located in the Middle East, its peoples have their origins throughout the world. By ethnic background and religion, its inhabitants are made up mostly of Jews, with a significant minority being Muslim or Christian Arabs (Sluglett and Farouk-Sluglett, 1993). Small numbers of non-Arab Christians and Druze also live in Israel, which forms a confluence of Jewish, Christian and Muslim civilization (Goitein 1974). It is a land stained by the blood of war, yet perceptive of an horizon of peace and mutual co-operation (Peres, 1993). The nation exists against a background of genocidal violence towards the Jewish people in Europe, and the concurrent aspirations of the Arab communities in Israel and the surrounding states of Jordan, Egypt, Syria and Lebanon to achieve their own national identities. A state of hostility exists in Israel which has been described as being neither war nor peace (Yaniv, 1993). It is in this context that forensic psychiatry in Israel is practised, though it is not yet recognized by the Israel Medical Association as a designated subspeciality, as is the case in England and Wales. Guémard, G. "Individual Adaptation in the Middle Years: Developmental Issues in the Masculine Mid-Life Crisis." *Journal of Geriatric Psychiatry* 9, no. 1 (1976), pp. 41-59.

Discusses the masculine mid-life crisis, viewing it as a time of inner and outer change with constructive or destructive consequences depending on the individual's personal and cultural circumstances. The "heterosexual" card of the standard TAT was administered to men of 5 cultural groups: 69 from Kansas City, 75 Arizona Navajos, 70 lowland Maya and 25 highland Maya in Mexico, and 178 Druze in the Middle East, in 3 age groups: 35-49 yrs, 50-59 yrs, and over 60 yrs. Results are presented and analyzed in detail to show the psychological changes that occur with age regardless of culture. For the urbanized man, the crisis of middle age presents other problems (e.g., the "liberated" middle-aged wife, possible alcoholism, and psychosomatic symptoms). The therapeutic implications of these problems are discussed. IAPA PsycINFOI

Compares national and gender identity among the Druze community in Israel and in Israeli-occupied Golan Heights. The history of Israeli policy toward the Druze within its designated borders demonstrates how a distinctive national identity was fostered within this non-Muslim, non-Arab population. Inclusion of Druze males into the Israeli military allowed men an opportunity for integration into the dominant culture, while denying access to women, thus reinforcing patterns of gender segregation and creating a marked gender split in Druze national identity. Similar attempts in Israeli policy to foster national identity in the Druze of Golan failed due to unanticipated identification with Syria among the Golan Druzes. In

addition, Druze women in the Golan participate with men in resistance efforts against Israel, resulting in greater gender equality. [D. Bajo, SA]

Depicts the efforts, from the 16th century to the present, of the local Shia, Sunni, Druze, and Maronite communities to coexist with one another in spite of strong but ever changing pressures from external enemies and friends. During the centuries of rule by the Ottoman Turks, Druze and Maronite feudal lords shared power. In the 19th and 20th centuries both France and Great Britain exerted great influence in the control of Lebanon. The apparent balance of political and religious conflicts during the 1950s and 1960s was shattered in the 1970s and 1980s by the tremendous influx of Palestinian refugees, the milit ary incursions of Israel, and finally the triumph in Iran of the Shia revolution led by the Ayatollah Khomeini. [Based on the works of Walid Junblat, interviews, CAOM documents and secondary sources. 5 maps. 2 figures. 2 tables.]

In the wake of the War of the Mountain in 1983 and the consequent collapse

of public services, Druze leader Walid Junblat established the Civil Administration of the Mountains (CAOM). The CAOM seems to have taken on the role traditionally performed by state bureaucracies in providing services to the community and catering for its various needs. In her attempt to assess the extent to which Junblat's administrative body may have broken with, or maintained, traditional political processes within the Druze community, the author examines the Lebanese political process and makes a detailed study of the CAOM Administration.

Studies the role of the Shaykh al-'Aql, spiritual leader of the Lebanese Druze community, in the Islamic sect's chief political rivalry since 1710. Because of its prestige and influence, the institution of Shaykh al-'Aql and its officeholders have been especially prominent in postwar competition between the Yazbakis faction, headed by the princely Arslan family, and the Jumblatis, led by Walid Jumblat. The Shaykh al-'Aql must be pious and diplomatic to keep the religious and political wings of the community in balance. [HA]

Harik, Judith P. "The Effects of the Military Tradition on Lebanon's Assertive Druzes." *International Sociology* 10, no. 1 (March 1995), pp. 51-70.

In order to answer the question of whether the defense mechanisms developed by some minorities may serve as 'energizers' to enhance their political significance, this study focuses upon the Lebanese Druze, a religious community which has exercised disproportionate political influence in relation to its size. On the basis of empirical data from other sources, Harik attempts to establish, if characteristics identified with a martial tradition such as a willingness to rectify grievances by resorting to force or the internalization of values related to war are transmitted to young Druze. She concludes that their military tradition is indeed a significant element of the identity of young Druze and that this factor seems to strengthen an internal cohesion absent in Lebanon's other religious communities.

Hofman, John E. and Nadim Rouhana. "Young Arabs in Israel: Some Aspects of a Conflicted Social Identity." *Journal of Social Psychology* 99, no. 1 (June 1976), pp. 75-86. [4 tables.]

Social identity of young Arabs in Israel was conceptualized as a set of subidentities including national (Arab), civic (Israeli), religious (Moslem, Christian, Druze), familial, and occupational factors. Forty male and female high school and university students of the three religious denominations were asked to express themselves on the attractiveness and importance to them of each of those subidentities. National identity was most important to 29 subjects and most attractive to 34. Civic identity was least important to 24 subjects and least attractive to 15. Students dealt with conflict between national and civic subidentities by denial and differentiation. Signs of conflicted and alienated social identity were lack of involvement in the state, unrealistic and frustrated occupational aspirations, declining interest in religion and family, and estrangement from non-Israeli Arabs. the Soul and Psychopathology in Israeli Druze: A Culture-Sensitive Psychotherapeutic Approach." *Psychopathology* 31, no. 1 (January/February 1998), pp. 52-58.

One of the central tenets of the Druze religion is the transmigration of the soul. In rare cases this belief may be related to psychopathology or cause a temporary inability to function normally, We report on 5 Druze patients whose preoccupation with transmigration was the basis of their pathological behavior. These cases illustrate the interaction between cultural and religious beliefs, and psychopathology, and emphasize the importance of employing a culture-specific psychiatric approach in the management of this type of patients. An account of the anti-French uprising of 1925-27 and the role of the newly appointed French high commissioner to Syria and Lebanon, Henri de Jouvenel. The uprising was the Syrian reaction to French mandate rule in Syria. The immediate cause, however, was the heavy-handed action and haughty attitude of Jouvenel's predecessor, General Maurice Sarrail, toward the Druze, who began the revolt. After suffering several defeats, the French brutally put the uprising down and replaced Sarrail with the civilian Jouvenel. Jouvenel wanted peace and a representative government in Syria,

but he achieved neither because he was not much different from General Sarrail in his use of punitive measures against and in his condescending attitude toward the Syrians. [HA]

Jones, Kevin and Tony Charlton. "Understanding Diversity: Special Educational Provision for the Druse Community of Northern Israel." Support for Learning 10, no. 3 (August 1995), pp. 123-126.

Describes an attempt to integrate special needs pupils of 3 monotheistic religions (Jews, Christians and Druse) in a mainstream intermediate high school, in Northern Israel. The school has 550 pupils (aged 13-25 yrs). Responses to the challenge of integrating pupils involve considerations of pupils' religious beliefs and practices, shared and special educational needs, and teachers' dissimilar religious, cultural and language backgrounds. In order to ensure that integration works effectively, all pupils are valued and respected for their individuality, as well as their religious and cultural beliefs. An attempt is made to adapt the learning environment to suit the needs of the individual, instead of expecting the pupil to fit the extant provision. Such integration must not be confined only to the indigenous staff drawn from different religious faiths, but must also be open to immigrants. [APA PsycINFO]

Karpat, Kamal H. The Ottoman emigration to America, 1860-1914. International Journal of Middle East Studies 17, no. 2 (May 1985), pp. 175-209. [Based on Turkish archival materials. 10 appendices.]

Examines Syrian emigration as part of the total Ottoman emigration to the Americas and in relation to the Ottoman policies governing the movement of people out of its territories during 1860-1914. Although the emigration has often been linked to such factors as the Druze revolts, widespread banditry, and Ottoman corruption, its central cause was economic dislocation brought about by the shift of the traditional economy to "a primitive form of dependent capitalism." Emigrants were drawn to the Americas by the availability of jobs that paid relatively high wages. Although political refugees were in the minority, some of them became naturalized US citizens and then returned to their homelands to engage in subversive activities, with the protections afforded by US citizenship. Ottoman complaints about this activity failed to stir the US government to take corrective action, and the issue led to a deterioration of US-Ottoman relations. [HA]

Kattar, Elias. "Les insurrections paysannes au Mont-Liban au XIXème siècle d'après les archives de la Congregation de Propaganda Fide." *Mélanges de l'Ecole Française de Rome: Italie et Méditerranée* (Rome) 109, no. 2 (1997), pp. 671-688.

In the 19th century Lebanese peasants staged a series of popular revolts, agitating for equal rights with the Druze, a privileged Muslim sect. The revolts erupted in three stages: from 1820 to 1821, in 1840, and from 1858 to 1860. By the final stage the movement had acquired the support of the

Maronite clergy and represented a considerable political force. The protests were as much directed against local hierarchical privileges as they were against the larger political threat of Egyptian occupation by Muhammad Ali and Ibrahim Pasha. A careful analysis of the correspondence from this period reveals that a new socio-political consciousness had developed among the peasants, resulting in a shift from traditional Lebanese politics of hereditary rights to a republican emphasis on the general will. Based on contemporary Lebanese chronicles of the revolts, travel narratives, documents in European state archives, archives of the Maronite patriarchate in Bkerke, and the Propaganda Fide archives. Katz, Ruth. "Widowhood in a Traditional Segment of Israeli Society: The Case of the Druze War Widow." *Plural Societies* 20, no. 1 (June 1990), pp. 22-35. [*Also in Women in Israel: Studies of Israeli Society:* Volume 6, edited by Y. Azmon and D. N. Izraeli, 51-64. New Brunswick: Transaction, 1993.]

The Druze community constitutes 1.7% of the Israeli population, and is distinguished from other non-Jewish ethnic groups by participation in the Israeli defense forces. Here, the psychological well-being of Druze war widows (N = 54) is examined, based on interview data, comparing both Israeli and Druze war widows with civilian widows on the impact of the government's support. The data indicate that the Druze war widows have by far the lowest well-being, even lower than their civilian counterparts, while Jewish war widows have a somewhat higher well-being than civilian Jewish widows. These findings could be explained by the unique sociocultural situation of the Druze war widows: they are entitled to generous public support, yet the traditional community in which they live discourages them from using many of these benefits. It is concluded that the contradiction between Druze war widows' socioeconomic potential, and the status forced on them by the community is a major source of their depression. 4 tables, 26 references. Kelidar, 'Abbas R. "Religion and State in Syria." Asian Affairs 61, no. 1 (February 1974), pp. 16-22. [Lecture to the Royal Central Asian Society, London, 24 October 1973. Based on secondary sources.]

The author surveys the history of religion and politics in Syria from 1920 until the formation of the United Arab Republic. After the collapse of the Ottoman Empire, geographical Syria but not Palestine was placed under French mandatory rule and further lost both Lebanon and the Sanjak of Alexandretta. Shortly after independence, the Syrian army, which was largely under the control of 'Alawi and Druze officers, came to dominate the political scene. Under the banner of radical Arab nationalism, Syria renounced its political sovereignty and territorial integrity by entering intoa political union with Egypt in 1958 to form the UAR.

Kennedy, R. Scott. "The Druze of the Golan: A Case of Nonviolent Resistance." *Journal of Palestine Studies* 13, no. 2 (Winter 1984), pp. 48-64. [Based on interviews and secondary sources.]

The article provides an interesting discussion of the Druze community's non-violent resistance in the Golan Heights against the Israeli occupation. The Israeli government's attempt to legitimize its annexation of the Golan Heights in 1981 resulted in efforts to persuade the Druze to adopt Israeli citizenship. A deep-rooted sense of community and social solidarity was clearly demonstrated by Druze resistance, which included strikes by Druze workers.

Khattab, Nabil Gad Yair and Aar on Benavot. "School Type and Educational Orientation: Muslim Students in Public and Christian Private Schools." Paper presented to the International Sociological Association in 1998.

While this survey of Arab high school students drawn from Muslim, Christian and Druze communities in Lebanon found that all shared the same educational goals and expectations, it also indicated that outcomes are affected by school type, particularly with relation to Muslim students. Thus, the analysis focuses upon the gap between those Muslims attending public schools and others at private Christian schools, with adjustments being made for the effects of family background. The main objective of this study was to build an "explanatory model of educational orientation" that integrates socio-economic and school elements.

Kamal Jumblatt was regarded by friend and foe as Lebanon's most exceptional political figure who could always rely on unconditional support from the Druze population regardless of any shifts in his political viewpoint. Jumblatt was at the same time a leftist politician and a traditional Druze who radically influenced the course of Lebanese politics. The career of Jumblatt is considered from his assumption of theleadership of the Druze. [HA]

Kirrish, Fadwa N. "Druze Ethnicity in the Golan Heights: The Interface of Religion and Politics." *Journal of the Institute of Muslim Minority Affairs* 13, no. 1 (January 1992), pp. 122-135. [Based on secondary sources. 2 maps. 3 figures. Table.]

Examines the dynamics that animated Druze ethnicity in the Golan Heights during the 1980s. The origins of the Druze religion are traced to the early tenth century, and political and social factors that led to the Druze settlement of the Golan Heights are examined. It is argued that Druze collective consciousness, manifested by solidarity, operates at three levels: the patronymic group, the village, and the Druze in the various countries of Levant. Power relations among the Druzes are discussed, and it is shown how the process of redefining ethnic boundaries was accomplished by an alteration in the conventional distribution of power. [W. Howard, SA]

Kirschenbaum, Alan and Albert I. Goldberg. "The Rural Village Commuter: Social Constraints on Labor Force Activity." *Israel Social Science Research* 7, nos. 1-2 (1992), pp. 119-134. [3 tables.]

Restricting labor activity, as is shown by a case study of a religious ethnic minority in Israel, the Druse, based on interviews with 250 Jews and Druse working in Haifa Port regarding labor mobility and work environment. Descriptive analysis shows that the Druse were demographically homogeneous all male, married, mostly with large families, and under age 45. They commuted via organized transportation to their workplaces, 20-60 kilo-

meters from their villages, and were concentrated in a single department, that of stevedores. With such concentration, the structure of their work could take on the social structure of the village. The Druse were much less willing than Jews to move their residence if asked to work at another site, because moving would separate them from their village and friends. However, they were much more willing than Jews to make intra- and interdepartmental changes. They saw their self-segregation in a single department aslimiting their career opportunities, but they still put family, clan, and village interests above labor considerations. [M. Pflum, SA]

Kisirwani, Maroun. "Foreign Interference and Religious Animosity in Lebanon." *Journal of Contemporary History* 15, no. 4 (October 1980), pp. 685-700.

This study examines how foreign powers manipulated hostilities between Maronites and Druze in the first half of the nineteenth century, pushing Lebanon to civil war by 1860 in the process.

Kohn, R. I. Levav B. Chang B. Halperin and P. Zadka. "Epidemiology of Youth Suicide in Israel." *Journal of the American Academy of Child and Adolescent Psychiatry* 36, no. 11 (November 1997), pp. 1537-1542.

In this study, the average yearly rates of suicide and undetermined death among young Jews, Muslims, Druze and Christian Arabs in Israel were calculated over a 15-year period (1975-1989). Among the subjects were children, adolescents and those who were old enough to be drafted into the military. For all of the religious groups, the rates were scrutinized according to gender, national/religious affiliation and place of residence; for Jews, ethnic origin was also taken into consideration. The authors found that suicide patterns among youths differed from those among adults with regard to gender, national/religious affiliation and ethnic origin. Young men facing

the draft (Jews and Druze) were at greater risk of suicide. Overall, suicide rates among Israeli youth are among the world's lowest.

Koyoumdjisky-Kaye, E. Y. Zilberman and O. Hazan. "A Comparative Study of Tooth and Dental Arch Dimensions and Sexual Dimorphism in Circassian and Druze Children." Zeitschrift für Morphologie und Anthropologie 68, no. 3 (1977), pp. 298-300. [In German. 3 tables.]

Krau, Edgar. "The Feeling of Low Quality of Life and Industrial Progress: Are They Linked?" *International Journal of Sociology and Social Policy* 5, no. 3 (1985), pp. 29-43. [4 tables.]

In Western society, industrialization has extended the values of achievement and economic competition into social interaction, while in traditional Eastern culture, group solidarity is more valued. It is hypothesized that should a cohesive community enter a dissolution period, its members would adapt their behavior to the principle of achievement fostered by industrialization, and would also express feeling a lower quality of life, common to large sections of the population in achievement-oriented societies. The hypotheses are tested using three samples in Israel: (1) 74 new immigrants from high-cohesion societies in the USSR and Rumania, participating in a vocational retraining program; (2) 79 industrial workers in an urban community dominated by the achievement values; and (3) 32 industrial workers of Druse nationality, living in a traditional high-cohesion community. The immigrant group was retested 1-1/2 years after the first test. The German variant of the Risk Preference Scale, a questionnaire, and a book catalog were used to obtain measures of work motivation, objective vocational success, and vocational s atisfaction. Results of multiple comparisons using the Scheffe method confirmed the hypotheses. The achievement motive wasstrongest in urban industrial workers and weakest in new immigrants at the outset; however, after one year at a job, an increase in the immigrants' achievement motivation paralleled a decrease in nationalreligious values and overall satisfaction. Lecker, Tikva. "Language Usage and Earnings among Minorities: The Case of the Arabs in Israel." *Journal of Socio-Economics* 26, no. 5 (1997), pp. 525-532. [3 tables.]

In order to ascertain the effect upon earnings of the use of the majority language upon members of minority groups, Lecker studied data from the 1983 Israeli census. The sample included 9,323 Muslims, 2,098 Christians and 907 Druze. Lecker argues that the separation of language use from other human capital resources provides a new awareness of the influence of language upon the "decomposition of wage differentials," particularly since the minority groups studied were not the product of migration.

Levay, I. and E. Aisenberg. "The Epidemiology of Suicide in Israel: International and Intranational Comparisons." Suicide and Life-Threatening Behavior 19, no. 2 (Summer 1989), pp. 184-200. [8 tables.]

A cross-national comparison of overall rates of completed suicide between Israel (primarily Jews) and selected European and North American countries, based on data from seve ral World Health Organization publications and the Israeli Central Bureau of Statistics and Ministry of Health. In general, suicide rates in Israel are lower. A comparison among different national religious groups within Israel over the period 1976-1985 reveals that Jews of both sexes commit suicide more often than do other groups.... Explanations for these findings are proposed, based primarily on degree of religiosity and various cultural factors. [SA]

LevWiesel, R. and A. al-Krenawi. "Attitude towards Marriage and Marital Quality: A Comparison among Israeli Arabs Differentiated by Religion." Family Relations 48, no. 1 (January 1999), pp. 51-56.

The authors surveyed a group of Israeli Arabs from different religious backgrounds to study the effects of such factors as mate selection, sexual potency, educational levels, attitudes concerning love and marital expectations upon marital satisfaction. They found that marital quality was lower among Muslims than Christians and Druze; that potency was important to all three groups; and that educational level had no effect upon Druze marital quality, although it was a factor for Christians and Muslims.

Lifshitz, Michaela. "Bender-Gestalt Test and Social Interactions of Kindergarten Children: Effects of Socialization Practices." *Psychology in the Schools* 15, no. 2 (April 1978), pp. 180-188.

Assessed the extent to which 120 5-6yr old kindergarten children's performance on the Bender-Gestalt Test is related to sex and sociocultural variables, and to children's social behavior. Two distinctly different Israeli populations were included: (a) the Druze representing the traditional-authoritative culture, and (b) the Jews representing the Westernized democratic society. Generally, the Jewish children were more socially active, and could differentiate and integrate the neutral elements of the Bender-Gestalt Test much more often than did the Druze children. Significant correlations between perceptual indicators and social behaviors were found, suggesting that the Bender-Gestalt Test can be used for assessing and understanding the nature of the child's social interactions and struggle for a position within the constraints of his/her culture. Mardini, Shaza, McDavid Doss. "A Secret Language Used in Druze Communications." *New York: Druze Orphans & Charitable Organization*, DOCO, volume 7, No. 3 & 4, Summer & Autumn 2005. [2 pages.]

In the history of communication there have been secret languages that have emerged over the years. These secret languages were used as a code to send messages over great distances without the information being discovered. The Druze Research and Publication Institute has presented a code which was found in Druze historical writings which they desire to have broken. This code is found in a book of letters written by the Indian Prince Jara bin Sumer Rajapal to al-Mugtana Baha' al-Din. These are historical letters referring to underground religious movement. In this paper we investigate a cryptic passage that has been thought to be written in the old Irish language known as Ogham. Here we show that the code is not Ogham, but in fact i., another secret language which is known as the "tree alphabet" of the philosopher Dioscorides. This alphabet has a reported key in Arabic. We have converted the cryptic code into Arabic and in turn we translate the passage into the English language. We conclude that the text presented by the Druze Research and Publication Institute is in fact from the "tree alphabet" of Dioscorides, not Ogham, and confirm that the Arabic key isvalid for future translations.

Mayer, Egon. "Becoming Modern in Bayt Shabab." *Middle East Journal* 27, no. 3 (Summer 1975), pp. 279-294.

Examines the impact of modernization in one Druze village in northern Israel. By inducting young Druze into the army and inviting them into institutions of higher education, the Israeli government has caused the young Druze to reject their religious and cultural heritage. Many identified with the Arab world in general, a clearly unintended consequence of the modernization process, the State of Israel having previously made every effort to integrate the Druze into the body politic. Openheimer, Jonathan W. S. "Culture and Politics in Druze Ethnicity." Ethnic Groups 1, no. 3 (1977), pp. 221-240.

The importance of culture in ethnicity can be appreciated if a semiotic approach to its interpretation is adopted. The development of Druze (a group of Israeli Arabs) ethnicity is examined historically; in terms of levels of organizational integration; and from the perspective of the relation of culture to politics. The fact that ethnicity involves the perception of

meaningful differences introduces culture as a fundamental factor. Another basic feature of ethnicity is its concern with boundaries. The culture in which ethnic differences are most meaningful, and in which there must therefore be some comparability between them as distinctive features, is the developing culture of the boundaries themselves, within the wider plural system. Jean Mermoz (1901-36), a hero of French aviation, enlisted in the army in 1920, attended aviation school, and was sent to Syria where the Druze were at war with the French occupation forces. Promoted to sergeant, he flew many reconnaisance, bombing, and medical evacuation missions and earned decorations for his valor and courage. [HA]

Petersen, Roger. "Rationality, Ethnicity and Military Enlistment." Social Science Information 28, no. 3 (September 1989), pp. 563-598. [12 figures. Table.] Ethnically skewed patterns of military enlistment are investigated using rational choice theory, and specifically, a model employing Schelling diagrams. The utility values used in this model are derived from three motivations: economic, the desire to avoid ingroup ostracism, and the desire to gain acceptance and access to the majority culture. The model is applied to case studies of the Druse in Israel and ethnic groups in South Africa. The benefits and drawbacks of the use of rational choice theory vs social norm theory are compared. It is found that strict economic motivations cannot account for the skewed enlistment patterns identified, and that a rational choice theory incorporating ingroup and outgroup relations is superior to social norm theory. This article reviews the Syrian insurrection of 1925-27 against the French Mandate. The uprising was instigated by a Druze rebellion that eventually led to a wider outbreak of violence. Rabinovich, Itamar. "The Compact Minorities and the Syrian State, 1918-45." Journal of Contemporary History 14, no. 4 (October 1979): 692-712. [Archival sources.] The Alawi and Druze communities, two Arabic-speaking Shiite groups, were typical of the divergent, compact minorities in the new Sunni Syrian state, 1918-45. The Alawi and Druze remained generally separated from Syria and under French domination until 1936when they were incorporated by a Syrian-French treaty. Integration met many difficulties and was interrupted until 1943. A new nationalist government in Damascus, with British support, integrated the areas fully into the state of Syria, 1944-45. [HA]

The renaissance of Arab nationalism since the beginning of the 19th century has been tied to religious reform and modernism. Arab national sentiment

developed in opposition to Ottoman power and was not limited to areas where Sunnite Muslim Arabs were in the majority. Between 1919 and 1939, non-Sunnite minorities such as Druze, Alaouites, Ismaelites, and others who are in touch with Islam and Christian thought have had an impact. Special attention is devoted to Michel Aflak, founder of the Baath Party. [HA]

Reiter, Shunit Sami Marii and Yaffa Rosenberg. "Parental Attitudes toward the Developmentally Disabled among Arab Communities in Israel: A Cross-Cultural Study." *International Journal of Rehabilitation Research* 9, no. 4 (1986), pp. 355-362. [3 tables.]

The attitudes of parents toward their developmentally disabled children were investigated. Parents (N = 184 Muslim, 106Druze, and 6 Christian Rs) receiving services from the Child Development Clinic of Nahariya Hospital, Israel, in 1980-1982 were interviewed separately, using a questionnaire developed from H. E. Yuker's, J. R. Block's, and W. J. Campbell's "A Scale to Measure Attitudes towards Disabled Persons" (New York: Albertson, 1960). Attitudes were generally found to be positive, especially among the Druze. A possible explanation for this difference based on religious philosophy is suggested. More educated Rs (many of whom were Christians) showed less favorable attitudes. It is concluded that positive attitudes seem to have their roots in past traditions and to be negatively affected by modernization. The importance of enhancing modern concepts relating to the education and rehabilitation of the developmentally disabled is emphasized. [SA]

Richani, Nazih. "The Druze of Mount Lebanon: Class Formation in a Civil War." Middle East Report 20, no. 1 [162] (January/ February 1990), pp. 26-30. An exploration of the Shouf districts of Mount Lebanon . . . predominantly inhabited by Druze since 1983, and its peripheral relationship to Beirut, the country's economic and political center, after adecade of civil war and state disintegration. The new class of entrepreneurs and agrobusinessmen is described, who emerged with the war and were primarily responsible for the development of Beirut. Focus is on the resulting class stratification of the Druze community, which included the petite bourgeoisie and wage laborers, as well as large industrial and agrarian entrepreneurs. It is argued that the general condition of Lebanese dependency on the metropolis and the path of development that emulated the experience of the political and economic center were primary influences in class formation in the Shouf areas. Ilan Studies in History (Ramat-Gan, Israel) (1978), pp. 169-177. [Based on British Foreign Office papers and secondary works.]

The Maronite immigrants in south Lebanon adversely affected Druze political influence during the 17th and 18th centuries. After the battle of Mukhtara (1825) and the Egyptian invasion of Syria (1831), the Druze position deteriorated, and in 1839 they petitioned the British Embassy in Constantinople. Great Britain, who wanted the Egyptians out of Syria, began to see the Druze as allies against the Maronites, especially since the Druze were sympathetic to the Greek Orthodox, the largest community in Syria. Britain promised aid to the Druze. However, in August 1841 the Whig government was defeated by the Tories, who gradually lost interest in the Druze and in Syria; their support finally ended in 1861. Saleh, Shakib. "The British-Druze Connection and the Druze Rising of 1896 in Houran." *Middle Eastern Studies* 13, no. 2 (May 1977), pp. 251-257. [Based on Foreign Office documents.]

The rise of a Turkish-German relationship in the eighteenth century was to have serious negative repercussions on British influence in the Ottoman Empire at a time when the Druze needed as much help as they could get from their British 'protectors.' As a result, the Druze were unable to resist pressure from the Ottoman government in its attempt to control their areas during the late nineteenth century. After numerous sporadic revolts, culminating in the 1896uprising, the Druze were pacified. Their appeals to England for help yielded no practical support and appeals by English diplomats to the Ottoman sultan, Abdul Hamid, were equally ineffective.

This is a broad study of the Druze religious sect in Syria spanning from the establishment of the French Mandate in 1920 up until the mid-1950s. The article focuses on how a combination of factors relating to the Druze belief system, historical origins and adherence to feudal isolationism led to the revolt of 1925-27, in addition to contributing to the Middle East's turbulent politics and troubled relations with the French there after.

Schilcher, L. Schatkowski. "The Houran Conflicts of the 1860s: A Chapter in the Rural History of Modern Syria." *International Journal of Middle East Studies* 13, no. 2 (1981), pp. 159-179. [Based on archival materials.]

Examines the rural history of Houran, Syria in the 1860s, a dry-farming region of hills and plains south of the Damascene oasis between northern Jordan's tributaries and the eastern desert. Conflict developed in the Houran because of the impact of three influences. First was the reorganization and reformation in order to allow a greater degree of central Ottoman control; second was the intensification of the political and economic interests of Europeans in Syria; and the final influence was created by increased immigration of Lebanese Druzes into the Houran, especially after 1860. [HA]

Schlicht, Alfred. "La France et le Liban dans la première moitié du XIXème siècle: Influences occidentales dans l'histoire orientale." Francia 11 (1983), pp. 495-507.

The intervention of the French in Lebanon's internal affairs in the first half of the nineteenth century was to have a serious destabilizing influence on the balance of power among the country's religious sects. Unlike France and its Lebanese Maronite supporters, other European powers adamantly opposed any move that might undermine the integrity of the Ottoman Empire. As a result, French policy in the region had a negative impact by furthering communal rivalry among all Lebanese communities.

Schmelz, U. O."Hamivneh Hademografi shel Haaravim ve-Hadruzim bi-Yisrael." Demographic structure of the Arabs and Druze in Israel. *Hamizrah Hehadash* 28, nos. 3-4 (1979), pp. 244-254. [Based primarily on current Israeli census materials.]

Analyzes the high birth rates of Israeli Druzes and Moslems. Combined with the low infant mortality rate resulting from Israel's health service, Druze and Arab birth rates have resulted in larger family sizes than is the case among the Jewish population. Non-Jewish Israelis are living longer than ever before; their number almost doubled between 1949 and 1966. There are now about 600,000 non-Jewish Israelis, and Druzes are outnumbered by Moslems five to one. The non-Jewish population is very young; almost half the non-Jewish Israeli population is under 14 years of age. [HA]

Schnell, Izhak. "Israeli Palestinian Territorial Perceptions." *Environment and Behavior* 25, no. 4 (July 1993), pp. 419-456. [4 figures. 8 tables.]

To explore the connection between identity and territoriality, 270 Palestinian Arabs living in subregions outside of the occupied territories in Israel, 500 Israeli Palestinians in settlements in subregional systems, and 100 Jewish Israelis in neighboring settlements completed card sorting tasks involving 8 hierarchical spatial levels (national, regional, kin-spatial, family, etc). The Israeli Palestinians were significantly more likely to use ethnicity as the dominant criterion for partitioning space; the Jewish settlers tended to use geographical and settlement type criteria. Israeli Palestinians tended to separate their settlements from the occupied territories and Jewish territories, while Jewish settlers did not, revealing a more intensive feeling of autonomy among the Israeli Palestinians. The 8-level hierarchical sort by the Israeli Palestinians revealed three distinct ethnic categories: religious (Palestinian Muslim, Christian, or Druze), national (Palestinian), and civil (Israeli). Apparently there is some tension between the Israeli Palestinians' sense of identity as ethnic Arabs and Israeli citizens. [M. Pflum, SA]

Schwarzfuchs, Shimon. "Yehudim, Druzim, Muslemim, ve-Notsrim be-Dameseq be-1860." Jews, Druze, Muslims and Christians in Damascus in 1860. *Michael: On the History of the Jews in the Diaspora* (Tel Aviv) 7 (1981), pp. 431-444.

Historical introduction and text of three Hebrew and four French letters and one report written in 1860 concerned with a false accusation made at the Jewish community of Damascus who were wrongly suspected of having helped the Druze in an assault and mass murder of Christians. [HA]

This article reports on two studies addressing the meaning of primary and secondary control beliefs for transition to modernity and modern adolescents. Study 1 participants (N = 365) were Malaysian (transition to modernity), and German and North American (modern) adolescents. Study 2 participants (N = 757) were Israeli Druze (transition to modernity) and Israeli Jewish (modern) adolescents. The control beliefs scales employed in the two studies drew from the primary-secondary control beliefs conceptualisation (Rothbaum, Weisz, and Snyder, 1982), shared a similar Likert-type item structure, but differed in operationalisation. Analyses tested two hypotheses; (1) the value mediation hypothesis postulated that transition to modernity adolescents will score higher on secondary control beliefs and modern adolescents will score higher on primary control beliefs; (2) the double transition hypothesis postulated that transition to modernity adolescents will score higher on both primary and secondary control beliefs. Results supported these hypotheses only partly. However, they did show clearly that transition to modernity adolescents endorsed secondary control beliefs more strongly than did modern adolescents. The discussion focuses on possible explanations of inconsistent results. It also suggests that future research should address two issues brought to light; the adaptive value of primary and secondary control beliefs; and the explanatory value of different control types. Both should be studied in historical, developmental, and cultural contexts. [A]

Shamai, Shmuel. "Loyalty in Conflict: The Golan Druze and the Educational Struggle." *Israel International Reviewof Modern Sociology* 23, no. 2 (Autumn 1993), pp. 107-117. [2 figures.]

After first describing the current conflict of interests among the Golan Druze, caught between Israel and Syria, an attempt is made to determine whether political pressures on Golan Druze students will influence their educational plans. Questionnaire data from 327 high school students in Masada reveal that Israel is considered the main and most preferred option for postsecondary studies. However, there is a large gap between student aspirations and achievement, attributed to both gender differences and political loyalty. [SA]

Shami, 'Abdullah. "The Druse Rising in Houran." *Imperial and Asiatic Quarterly Reviewand Oriental and Colonial Record*, [n.s.], 3, no. 2 [nos. 3-4] (July/October 1896), pp. 306-314. [With map.]

Shamir, Boas and Amos Drory. "A Cross-Cultural Comparison of Prison Guards' Beliefs Regarding the Rehabilitation Potential of the Prisoners, the Rehabilitative Potential of the Prison and Their Own Supportive Role." *International Journal of Comparative Sociology* 23, nos. 3-4 (September/December 1982), pp. 216-224. [2 tables.]

Shamir and Drory compare the beliefs of Jewish (N=264) and Druze (N=79) maximum security guards in Israeli prisons concerning prisoners' potential for rehabilitation, prisons' potential to rehabilitate and their own role in the process. Cultural differences were found regarding beliefs in the rehabilitative potential of prisons and in the relationship between such beliefs and role conflict and job satisfaction.

Shamir, Boas and Amos Drory. "A Study of Cross-Cultural Differences in Work Attitudes among Three Groups of Israeli Prison Employees." Journal of *Occupational Behaviour* 2, no. 4 (October 1981), pp. 267-282. [5 tables.]

An investigation of differences in work attitudes among three cultural groups of Israeli prison officers, based on questionnaire data collected from the following groups: Druze (N = 83), Jews of North African origin (N = 127), and Jews of Georgian origin (N = 96). Several hypotheses were derived from previous knowledge of the three cultures, and differences explored in the relationships between perceptions and attitudes concerning specific aspects of the job vis-à-vis two measures of overall affective responses, general job satisfaction and tedium. Consistent cross-cultural differences related to characteristics of the cultures studied were revealed only with regard to satisfaction with promotions and role ambiguity. The theoretical and practical significance of these results is discussed, and a general direction for future studies in the area is recommended. [SA]

The importance of values and demographics in consumer behavior has grown in recent years. The globalization of markets increases the need for cross-cultural comparison of consumer behavior issues including values and their variation across cultures and demographics. Studies have established value differences across age and gender groups but mostly within single culture analyses. Our study explores three main topics; value differences between males and females, value differences across age, and the simultaneous impact of gender and age on value importance. This study also provides a preliminary cross-nation comparison of the impact of age and gender on value preferences. Data were collected from Jewish and Druze couples, and several findings emerged. First, several values are preferred more by females than males. Second, value preferences differ by age across gender groups. Finally, comparing our findings to those reported in previous research, value preferences are compared across nations and differences are identified. These findings are important for global companies, who engage in segmentation, product positioning, and promotion in different cultural settings. [A]

This article reconstructs Lebanon's turbulent history, with particular focus on religious conflicts between Muslims, Christians and Druze. The European Powers, specifically France, Great Britain and Russia, are also discussed. The author also recounts the French expedition to Syria and Lebanon in 1860-61 and the massacres suffered by the Maronite Christian community in Mount Lebanon. It concludes with a brief chronological account of the background to Lebanon's sectarian strife since 1918.

Spivak, B. I. Iancu N. Daie and A. Weizman. "The Belief in the Transmigration of Souls as a Presenting Symptom of Generalized Anxiety Disorder in a Military Setting." *Psychopathology* 28, no. 3 (May/June 1995), pp. 158-160. Transmigration of souls is one of the central beliefs of the Druze religion and culture. However, in rare cases this belief can represent psychopathology. A case of an 18-year-old Druze soldier suffering from generalized anxiety disorder whose presenting symptom was a belief in transmigration of souls is described. This case illustrates the interaction between cultural and religious beliefs with psychopathology. [A]

This study examined whether and how members of a non-Western traditional culture hold concepts of rights and liberties. Ninety Druze

adolescents and adults (mean ages 13:3, 17:6, and 43:11) were posed with general questions about freedoms of speech, religion and reproduction, as well as with situations in which the exercise of those freedoms was in conflict with weak and strong versions of each of the following social goals: avoiding harm to persons, community interests and directives from family authority. The findings indicate that Druze adolescents and adults endorse each of the freedoms in the abstract as rights independent of existing laws. Further, they judge these rights not as absolute or inviolate, but as freedoms that in certain contexts can be subordinated to conflicting social concerns. No age differences were obtained in the general endorsement of freedoms, but older participants were more likely than younger participants to affirm freedoms in conflict situations. [A]

Van Dam, Nikolaos. "Israeli Sectarian Propaganda during the October 1973 War." *Muslim World* 67, no. 4 (October 1977), pp. 295-305. [Based on broadcasts by Radio Israel and secondary works.]

A study of propaganda broadcasts in Arabic by Radio Israel during the October War of 1973. The broadcasts, directed at Syria, were designed to spread discord among Syria's diverse religious sects. Reference is made to Radio Israel's claim during the war that substantial differences existed between the Sunni Naji Jamil, commander of the Syrian Air Force, and Alawi President Hafez al-Asad differences that supposedly explain the poor performance of the Syrian Air Force during the war. Another reference is made to the alleged execution of Druze officer, Rafiq Halawah.

Wainryb, Cecilia and Elliot Turiel. "Diversity in Social Development:

Between or within Cultures?" In Morality in Everyday Life: Developmental Perspectives, edited by Melanie Killen and Daniel Hart, pp. 283-313. Cambridge Studies in Social and Emotional Development. New York: Cambridge University Press, 1995.

Considers in some detail the role of cultural contexts in the development of concepts of self and morality, with special emphasis on the structure of such concepts in traditional societies like that of the Druze [a small Arab community which was formed in the early 11th century and has since functioned as an inbred society]. This includes analyses of concepts of personal prerogatives and individual rights that go beyond the mere enumeration of examples, like the suppression of M. Halaby's book ["Diary of a Druze Girl"], which seem to reflect divergent moral codes and cultural practices in different cultures. . . . The authors begin with a review and critique of the dominant approaches to culture and social development approaches that focus on homogeneity within cultures and divergences in concepts of self and morality between cultures. [APA PsycINFO]

Wainryb, Cecilia and Elliot Turiel. "Dominance, Subordination, and Concepts of Personal Entitlements in Cultural Contexts." *Child Development* 65, no. 6 (December 1994), pp. 1701-1722.

In 2 studies, we assessed concepts of personal entitlements in more and less hierarchically organized cultures. Study 1 assessed the judgments of 88 adolescent and adult males (mean ages 17-6and 34-7) from Druze and Jewish communities in Israel. Subjects were presented with conflict situations in which a person in a dominant position (husband, father) objects to the activities of a family member in a subordinate position (wife, daughter, son), and vice versa. Druze subjects attributed more power than Jewish subjects to husbands and fathers over wives and daughters, but concepts of personal entitlements were prominent in both groups. Study 2 assessed the judgments of Druze females (mean ages 12-10, 17-5, and 38-6). Results show that females accept the legitimacy of males' power and personal autonomy, recognize the consequences for those in subordinate positions, and regard the existing social arrangements as unfair. Overall, the findings indicate that social reasoning is heterogeneous in different types of cultures. [A]

Wainryb, Cecilia. "Reasoning about Social Conflicts in Different Cultures: Druze and Jewish Children in Israel." *Child Development* 66, no. 2 (April 1995), pp. 390-401.

This study examined how children of different cultural backgrounds weigh competing considerations in complex social situations. 351 children from Druze and Jewish communities in Israel... were presented with conflicts between ... (a) Justice-Authority, (b) Justice-Interpersonal, (c) Personal-Interpersonal, and (d) Personal-Authority. For each conflict, subjects selected the course of action to be followed and evaluated the desirability of each behavioral alternative. Both similarities and differences were found in the ways children ... weigh social concerns and change their priorities with age. Furthermore, judgments in both groups were complex and heterogeneous. These findings demonstrated that the weighing of social concerns in conflict situations is not done solely according to an overriding cultural orientation. [A]

Wainryb, Cecilia. "The Mis-Measure of Diversity: Reflections on the Study of Cross-Cultural Differences." In Culture as a Context for Moral Development: New Perspectives on the Particular and the Universal, edited by Herbert D. Saltzstein, pp. 51-65. New Directions for Child Development, no. 76. San Francisco: Jossey-Bass Inc., Publishers, 1997.

The goal of this chapter is to point out some of the limitations of the study of diversity though general cultural explanations and provide an alternative path for capturing diversity between cultures in ways that recognize the heterogeneity of human experiences. The author argues that individuals within cultures participate in multifaceted social experiences and in the process develop distinct goals, interests, and perspectives; multiple and even conflicting perspectives also emerge out of social interactions among individuals within society. Therefore, the study of diversity between cultures necessitates the study of the local manifestations of diversity within cultures. To illustrate this proposition, the author discusses data from a number of studies conducted among the Druze Arabs in Israel on diversity in issues of independence (personal choice, rights, autonomy) and interdependence (obedience, mutuality, collective interests) in relation to gender and age. The particular manifestations of diversity within this traditional, hierarchically

organized society are contrasted with the manifestations of diversity within Western societies (Israeli Jewish and American). The finding that the local or cultural manifestations of individualistic and collectivistic elements vary systematically along a number of dimensions renders the heuristic of quantifying the overall proportion of individualistic and collectivistic elements within a society at the very least insufficient. Weiss, S. and M. Moore. "How Do Israeli Adolescents of 4 Religions Obtain Alcoholic Beverages and Where?" *Journal of Child and Adolescent Substance Abuse* 4, no. 4 (1995), pp. 79-87.

This article describes preferred places of drinking and ways of obtaining alcoholic beverages by 1,480 Jewish, Moslem, Christian and Druze adolescent drinkers from 29 schools in 13 locations in the north of Israel in winter 1994. The pub is the primary source of alcohol for Jewish adolescents.

whereas the home is the main alcohol source for non-Jewish teenagers. Most Jewish and Druze teenagers obtain alcohol by themselves. Most Moslems get their drinks from same-age friends. Most Christians get alcohol from their parents. This article presents gender and grade differences, as well as cultural-oriented suggestions for preventive initiatives. [A]

Weiss, S. and M. Moore. "Israeli Christian, Druze, and Moslem Adolescents' Attitudes toward Magazine Alcohol Advertisements." *International Journal of the Addictions* 27, no. 6(1992), pp. 735-741.

Weiss, S. and M. Moore. "Reasons for Abstinence among Moslem, Druze, and Christian Adolescents in Israel." *International Journal of the Addictions* 30, no. 11 (1995), pp. 1499-1508.

Weiss, S. and M. Moore. "Reasons for Non-Drinking among Israeli Adolescents of Four Religions." *Drug and Alcohol Dependence* 38, no. 1 (April 1995), pp. 45-50.

Adolescent abstainers have largely been ignored in the literature. This article describes the reasons for not drinking of 2366 Israeli Jewish, Moslem, Druze and Christian adolescents in the north of Israel in the winter of 1994. It analyzes the findings by religious group, religiosity (secular versus religious Jews), location and gender of Jews, and school grade of Jews and Moslems. Harmful health consequences of alcohol use and religious injunction are the most prevalent reasons for abstinence among Moslems and Druze. Jews abstain mainly because of disliking the taste and/or smell of alcohol and because they "do not care for it." Christians abstain mainly because of the harmful effects of alcohol on health and dislike of its taste and/or smell. The implications of the results for prevention are discussed. [A]

Weiss, S. G. H. Sawa Z. 'Abdeen and J. Yanai. "Substance Abuse Studies and Prevention Efforts among Arabs in the 1990s in Israel, Jordan and the Palestinian Authority: A Literature Review." *Addiction* 94, no. 2 (February 1999), pp. 177-198.

This paper is the result of a collaborative project of Israeli, Jordanian and Palestinian scientists gathered to reveal the current extent of substance abuse and efforts at prevention among Arabs in Israel, Jordan and the Palestinian

Authority territories, in order to identify needs and suggest future collaborative activities and directions for regional cooperation. The article provides data and covers the current state of substance abuse prevention and research among Moslems, Christians and Druze ... by reviewing prevention materials and studies published in the professional literature, as well as in reports and Doctoral and Master's theses in Arabic, which have been located in academic libraries and other institutions, in the framework of a comprehensive search. The review shows that most of the Israeli research in the Arab sector deals with alcohol use among youth, that the majority of Jordanian studies focus on illicit drug use, that the research among Palestinians is in its infancy, and that comprehensive prevention programs are lacking in the trilateral region. It describes the key results of most of the 12 Israeli studies among Arabs, 11 Jordanian studies and four Palestinian studies. It reveals that drug abuse among Israeli Arab students is probably more prevalent than among Jewish adolescents, that the typical Jordanian drug addict has a higher level of education than the typical Palestinian drug addict, and that the Palestinian is more likely to be a multiple drug user. Recommendations for future activities include organization of a regional collaborative workshop in order to establish data collection systems for basic statistics relevant to drug abuse and development of comprehensive prevention programs, as well as studies in the substance abuse domain concerning knowledge, attitudes and behavior among the general Arab population. [A]

Weiss, Shoshana."Attitudes of Israeli Jewish and Arab High School Students toward Alcohol Control Measures." *Journal of Drug Education* 29, no. 1 (1999),pp. 41-52.

This article describes a study of the attitudes of adolescents of 4 religions in the north of Israel toward 8 alcohol control measures: taxation on alcohol, age limit for buying alcohol, restrictions on types of outlets which are allowed to sell alcohol to minors, restrictions on opening hours of pubs, restrictions on advertising of alcohol, limit of blood level of alcohol when driving, the authority of policemen concerningthe testing of drunk drivers, and restrictions on roadside alcohol outlets. Of the 2,186adolescents (aged 16-18 yrs) surveyed, 1,387were Jewsand 799 were Arabs (340 Moslems, 351 Christians, and 108 Druze); 1,080 were boys and 1,106were girls. Findings indicate that the majority of the Ss tended to support alcohol control

measures pertaining to alcohol and driving issues, but only about a third of the Ss tended to enhance alcohol control measures in the other domains. In addition, Arabs tended to favor restrictive attitudes toward alcohol control measures in comparison with Jews, and Arab females tended to favor such attitudes more than Arab males. Implications for prevention and effective alcohol policy are discussed. [APA PsycINFO]

Weiss, Shoshana. "Israeli Arab and Jewish Youth Knowledge and Opinion about Alcohol Warning Labels: Pre-Intervention Data." Alcohol and Alcoholism 32, no. 3 (May/June 1997), pp. 251-257.

This article presents the results of a survey of about 2220 Arab (Muslim, Christian and Druze) and 845 Jewish adolescents living in northern Israeli communities in 1996. A questionnaire about warning labels on alcoholic beverages asked respondents about their knowledge of the risks listed on such labels before their introduction and about their knowledge of other risks omitted from the proposed labels. Most of the adolescents preferred warning labels on containers to warnings on advertisements and Arab respondents favoured such labels more than Jews. Initial levels of knowledge among respondents were not very high.

Weiss, Shoshana. "What Do Israeli Jewish and Arab Adolescents Know about Drinking and Driving?" Accident Analysis and Prevention 28, no. 6 (November 1996), pp. 765-769.

This article describes a study, which is the first in Israel to investigate knowledge concerning drinking and driving among a large group of 2408 adolescents of four religions in the north of Israel, in the winter of 1995. The article analyses the results by referring to general scores and to five areas in the "drinking and driving" domain: legal blood alcohol concentration (BAC) limit, minimal number of drinks prohibited by the lawbefore driving, common myths, main effects of alcohol on driving ability and youth vulnerability. The article emphasizes differences between the Jewish group and the non-Jewish (Arab) group. The average score of the sample was 2.06 (out of 5). Jews received the highest score (2.30) and Moslems got the lowest score (1.45). No differences were found among those who had a driving license and those who had not, and between the group of respondents from the north of Israel and a sample of participants from the center of the country. Lack of knowledge was revealed especially concerning knowledge

about the BAC limit and youth vulnerability. Arabs tended to exaggerate the amount of drinks allowed to be consumed before driving according to the law, to hold common myths more than Jews and to get lower scores concerning alcohol's main effects on driving skills. However, they tended to be more aware than Jews of youth vulnerability. [Elsevier Science]

Yiftachel, O. and M. D. Segal. "Jews and Druze in Israel: State Control and Ethnic Resistance." *Ethnic and Racial Studies* 21, no. 3 (May 1998), pp. 476-506.

The article examines the evolving relations between the settler state of Israel and an Arab-Druze indigenous village community. Theoretical aspects are initially discussed, highlighting a structural conflict embedded in the ethnocentric processes of nation- and state-building in 'pure' settler societies. The place of the Druze community and the village of Bet Jan are then analysed within the Israeli (Jewish) 'ethnocracy' which imposed territorial control policies over the village. This control was intensified by

environmental groups which campaigned to constrain Druze land usage in village lands zoned as a natural reserve. However, growing awareness among the Druze of their ethnic discrimination, and their increasingly effective political mobilization, have resulted in the development of a protracted land control conflict. The Bet Jan case demonstrates that the modern 'nation-state' in general, and the ethnocentric settler state in particular, are fragmenting. Ironically, this process is partially caused by the state's own ethnocentric policies of land and minority control. [A]

Zeidner, Moshe. "Perceptions of Ethnic Group Modal Intelligence: Reflections of Cultural Stereotypes or Intelligence Test Scores?" *Journal of Cross-Cultural Psychology21*, no.2(June1990),pp.214-231.[3tables.]

Zeidner studied Israeli college students (60 Arabs and 60 Jews) to ascertain perceptions of the modal intelligence of European and Sephardic Jews, and Muslim, Christian and Druze Arabs, as well as which determinants they deem responsible for differences in ability among ethnic groups, their thoughts on the social distance between these groups, and their assessment of the relationship between perceived social distance and group modal intelligence. Respondents saw the modal intelligence of the five groups in the context of their own group affiliations, leading the author to suggest that the role of each group in relation to the others and cultural stereotypes among groups both affected perceptions of intelligence. Jews of European extraction were generally considered to be most intelligent, with Arab students generally explaining their assessment in terms of environment.

Zenner, Walter P. "Some Aspects of Ethnic Stereotype Content in the Galilee: A Trial Formulation." *Middle Eastern Studies* 8, no. 3 (October 1972), pp. 405-416.

An analysis is made of the content of stereotypes held by Arabs in Galilee regarding Muslims, Christians, Druzes, bedouin and gypsies. Interviews were held with elder Arabs in the Galilee-Carmel region of Israel between Nov. 1967 and July 1968. In general, Christians were believed to conform much less to the Arab codes of honor and chastity than the Muslims and Druzes. Defending the modesty of women is seen more often among Muslims and Druzes than Christians. The Christians are viewed as less violent and more successful in gaining material rewards. The bedouin are viewed as possessing a fighting ethic, especially in relation to defense of honor. The gypsies are viewed as being without honor and so do not have to be treated honorably. They are also viewed as relatively nonviolent and sexually immodest. [P. Montgomery, SA]

Zenner, Walter P. and Maurice N. Richter. "The Druzes as a Divided Minority Group." *Journal of Asian and African Studies* (Leiden) 7, nos. 3-4 (Summer 1972), pp. 193-203.

The Druzes are a typical minority group in their relations with the dominant groups among whom they live. The Druzes have a high level of group autonomy, created by particularistic historical and geographical phenomena. Group identity is so strong that even though there is often conflict between internal factions, social mechanisms have been created to mitigate divisive tendencies. [HA]

Abouchedid, K. E. Confessional Pluralism and Education: Themes from the Lebanese Experience. Ph.D., Manchester University, 1997.

In an attempt to discover how confessional schools operate and whether or not their practices take Lebanese multiculturalism into consideration, the author studied the impact of Lebanese educational policies upon instruction in history, languages and religion in seven confessionalschools. According to the author, another aim of the dissertation wasto achieve a "better understanding of the factors which promote particularistic sub-cultural units in schools." Using research undertaken before Lebanon's 1975-1990 civil war and contemporary case studies exploring the views and experiences of policy-makers, school staff and students, this study shows that little has changed since the French Mandate with regard to "sectarian affiliation of schools and the distribution of student bodies on confessional and economic grounds." Thus, while Muslim, Druze and Armenian schools have failed to attract Arab Christian students, Christian schools which avoided prosely-tization or kept it to a minimum were successful in attracting Muslim students.

'Adrah, Hala. Druze Identity in Perspective: A Case Study of Druze University Students. M.A., School of Oriental and African Studies, University of London, 1991.

After characterizing the Druze community as a scattered, agrarian religious minority with a substantial urban presence, the author analyzes the aggregate identity of a number of Druze students at the University of Damascus. Her method includes an examination of Druze literature, which is substantially informed by Druze history and doctrine to the detriment of any discussion of Druze self-image and identity, and an analysis of field research on the basis of anthropological theory. Consideration is given to the current self-image of Druze students, the image held by non-Druze students at the same university and "the contemporary dynamics for an ethnic identity for the Druze, presuming the model of a politically 'stable' Syria."

'Azzam, Intisar Jamil. Persistence and Malleability of Ethnic Boundaries: The Experience of the American Druze. Ph.D., University of California at Irvine, 1995. [183 pages.]

In studying the Druze as a distinctive and cohesive esoteric collectivity, whether in the Middle East or in the diaspora, the author's stated goal is to examine the creation and organization of ethnicity as well as the creation and transformation of identity within a migrant population. Specifically, the study focuses upon three factors: the basis and contextual dynamics for American Druze claims to distinctiveness: the definition of inclusion and exclusion criteria among these Druze; and the "role and viability of intentionality and voluntary affiliation vis-à-vis ascription[®] in determining the membership and boundaries of the group. Research was conducted among members of a southern Californian community of about 1700 Druze and included a preliminary survey as well as participant observation, intensive interviews and extensive case histories. Azzam found that traditional definitions of Druze identity based upon esoterism and endogamy were subject to challenges and change, while symbolic forms of cohesiveness and distinctiveness were given new emphasis and "diverse subjective perceptions of cultural difference had begun to emerge." Azzam concludes that such new perceptions must be analyzed as "changes for continuity, which forces us to view 'community' or 'cultural difference' as a malleable symbolic construct with a longevity deriving from the creative reorganization of the various subjective interpretations of the shared symbols, and the actions taken by individuals to infuse these symbols with vitality."

Bakhsh Jalaluddien, Khuda. Melville and Islam. Ph.D., Florida State University, 1988. [152 pages.]

A childhood fascination with Arabia led Melville to infuse his work with Middle Eastern imagery, beginning with his first work, Typee, published in 1846. After a trip to the Holy Land ten years later, his interest in the Prophet Muhammad expanded to include Islam as a religion. For example, his 1876 work, Clarel, has his protagonist, Rolfe, ascribing the tranquility of the

Muslim Druze, Djalea, to the latter's active relationship with God, an insight which serves to intensify Rolfe's own interest in Islam. In this dissertation, Bakhsh examines how Melville adopted "Islamic philosophies" in his own life, including what he describes as "Islamic fatalism," concluding that this helped Melville to accept "his age's failure to recognize him as an intellectual who [had] diagnosed the problems which plagued the spiritual side of Western civilization."

Bedoyan, Hratch. The Internal Power Structure and Political Leadership of the Armenian and Druze Communities in Modern Lebanon (1943-1972) and Their Political Activities in Three Major Crises. Ph.D., University of Oxford, 1978. [376pages.]

Bedoyan analyzes the power base of Armenian and Druze political leaderships and the distribution of power in their communities with regard to elections to Lebanon's parliament and its communal councils, and the selection of high-ranking civil servants. On the basis of historical and contemporary research into socio-economic and educational factors, as well as the behaviour of Armenian and Druze leaderships during three political crises in Lebanon, Bedoyan concludes that the Druze political leadership depended upon small homogeneous groups with traditional power bases and that their control was exercised through the political heads of the Junblat and Arslan clans; at the time of writing, these families were led by Kamal Junblat and Majid Arslan. Bedoyan contends that Junblat modified the approach and role of the Druze leadership by altering the usual balance of power within his community and by posing a threat to traditional Lebanese political activity through his combined position as the Druze communities' most powerful figure and the national leader of leftist forces.

Hajar, Paula M. Arab Immigrant Parents and American School-People: An Ethnography of a Cross-Cultural Relationship. Ph.D., Harvard University, 1993. [470 pages.]

This dissertation studies the relationships between Arab immigrant parents and the staff of two elementary schools in a north-eastern American city. Semi-structured interviews were conducted between seventeen parents (Christians, Muslims and Druze) who had emigrated from Lebanon, Palestine and Syria, and thirty staff members, half of them teachers. Hajar comments that the parent/school relationship was dependent upon the tendency of one school to separate children of limited English proficiency, while the other did not. Parents disliked segregation, but teachers in the heterogeneous classrooms found it difficult to cope with the children's needs and tended to refer them to special education programs more often than they did other students. Moreover, teachers often had very different attitudes toward ethnic differences; some were enthusiastic about them, some wished to acculturate students quickly and still others tolerated differences but were ambivalent about their place in the classroom. In general, school staff knew little about the Arab world and its diversity, and some were particularly critical about patriarchal and hierarchical family roles. Arab immigrant

parents tended to stress limits and controls, instead of freedom and individualism, and felt particularly threatened by American sexual mores. According to Hajar, these attitudes "inhibited their friendships with Americans" and "their participation in American community life."

Hopper, May Habboush. Comparative Analysis of Ethnic Identity, Self-Concept and Attitudes toward Women among Lebanese and Palestinians. Ph.D., University of Florida, 1983 [161 pages.]

Hopper surveys 119 Lebanese and Palestinians of both sexes and various religious backgrounds in order to "investigate the topology of the Arab-American ethnic identity and its relationship to self-concept and to attitudes toward women's roles and behaviors," as well as to "explore any differences and similarities . . . [among] these three variables in relation to gender, religion, nationality and length of stay in the USA." She concludes that Arab-American ethnic identity is "orthogonal" and made up of relatively discrete Arab and American dimensions. The Lebanese identified more strongly with the American dimension, as did Christians in general, although this identification seemed to be a related to the amount of time respondents had spent in America. The Lebanese also tended to score higher on selfconcept, which was unaffected by length of stay, although no significant differences were found among adherents to the three religions. No real differences existed between the Lebanese and Palestinians regarding their attitudes toward women; however, the Christians in both groups tended to have a more liberal approach. Women scored much higher on self-concept then men and were also more liberal in their attitudes toward members of their own sex. Ethnic identity was essentially the same among both men and women.

Kamal, Fawaz. Study of the Political Aspects of the Druze Law. Ph.D., Dropsie University, Philadelphia, 1981. [In Hebrew. 158 pages.]

Kamal begins with the assertion that the Druze of Palestine were not granted millet status by the Ottoman government even though their co-religionists in Lebanon were so recognized and were also given the right, in 1890, "to maintain local judicial organs to deal with problems of inheritance, marriage and personal status." As a consequence, Israeli Druze followed Muslim court law until 1962, when the Israeli government passed a separate court law for Druze based upon developments in Lebanese law. Kamal characterizes the personal status law developed in Lebanon as "the finest modern family law enacted at any time in the Middle Eastern Arab countries," describing it as a synthesis of religious and secular laws drawn from local and foreign (Egyptian and French) sources and especially from "ancient Druze religious law." Due to the influence of this latter source, "it derived provisions suited to the modern nuclear family, such as prohibition of polygamy, the principle of representation in succession and absolute freedom of testation," all of which are in sharp contrast to Muslim legal norms. Kamal notes that, by borrowing Druze court law from Lebanon, Israel is the first country in the history of international law to embrace a law passed in an enemy country.

Kanaan, Claude Boueiz. Intercommunal relations and the 1958 crisis in Lebanon Ph.D., School of Oriental and African Studies, University of London, 1996.

Kanaan argues that analyses of the 1958 crisis in Lebanon tend to overemphasize the role of foreign states and ideologies to the detriment of its long- and short-term internal causes. Indeed, in the author's opinion, the influence of ideologies such as Nasserism largely derive their importance from the fact that they were "invoked by Lebanese elements in the name of Lebanese foreign policy in order to further their own causes and agendas for Lebanon." In part, these agendas were shaped by deep-rooted communal

myths concerning the 'historical' evolution of Lebanon's different confessional groups. Consistently significant was the role played by the Maronites and their mythology; similar initiatives by the Sunnis and Druze were more sporadic and often depended upon their relations with the Maronites. Nonetheless, all groups helped to precipitate the crisis by justifying their agendas for Lebanon's future through interpretations of the country's past. In tracing the communal sentiments and tensions underlying the crisis and its resolution, this study uses official and private papers, unpublished memoirs, newspapers and interviews.

Kasdan, Leonard. Isfiya: social structure, fission and faction in a Druze community. Ph.D., University of Chicago, 1961.

جبل عامل والإدارة الشهابية (١٨٤١-١٦٩٧) رسالة لنيل Jabal Amel (southern Lebanon) and شهادة الكفاءة التعليمية في مادة التاريخ the Shahabi administration (1841- 1697). ed. Nicola Ziadeh. [159 pages.]

Khanmohammad, Mumtaz. The Fatimid Da'wa in the Reign of al-Hakim Bi Amr Allah. M.A., School of Oriental and African Studies, University of London, 1986.

The first two chapters discuss the Fatimid da'wa, with particular emphasis on the reign of al-Hakim bi-Amrallah, between AD 1000-1021. The third chapter treats the controversy regarding the person of al-Hakim. The fourth chapter focuses on the da'wa under al-Hakim and the emergence of Druzism.

Kirrish, F. Ethnicity and Social Organisation in a Druze Community. Ph.D., University of Cambridge, 1987.

On the basis of extensive fieldwork in Majdal Shams, a Druze village on the Golan Heights, the author attempts to describe and analyze the factors which have led to changes in Druze ethnic identity, particularly in the context of political processes taking place at the time of writing and of developing relations between the Druze community and the state of Israel. Kirrish discusses ancient Druze ethnic boundaries based upon descent and endogamy, contemporary links between Israeli Druze and Druze in neighbouring countries, and cultural similarities between Druze and Arabs before developing one of his major themes, the "redefinition of ethnic

boundaries by the Druze spiritual leaders." Kirrish next looks at the effects of this process and of changes in economic resources, land tenure and employment within the Druze community in order to explore the distribution of power between the temporal and spiritual leadership.

Landis, Joshua Mead. Nationalism and the Politics of Za'ama: The Collapse of Republican Syria, 1945-1949. Ph.D., Princeton University, 1997. [388 pages.]

Landis begins his study of the early period of Syrian independence by focusing upon the 'Alawi and Druze élites to argue that "bitter sectional and communal competition, not class warfare, undermined Syria's fragile power center and permitted Colonel Husni al-Za'im to take power in 1949." He contends that the leadership of the 'Alawi and Druze communities were unwilling to relinquish power to Damascus or to embrace the Sunni form of Arab nationalism, preferring instead King 'Abdullah's dream of a Greater Syria and the maintenance of their own political autonomy. In response, President Quwwatli strove to encourage an alternative Druze leadership, a move which led to strife in Jabal Druze and instability in the country. After describing the different strategy followed by the 'Alawi community, Landis concludes by ascribing Syria's early political problems to "fierce competition between regional élites, the different interpretations of the nation each promoted, and their lack of a shared sense of political community."

Ma'aluli, Tony (al-). العمران في عهد فخر الدين المعني الثاني Development in the age of Fakhr al-Din Ma'n II. Certificate in History, Faculty of Education, Lebanese University, Beirut, 1973.

Makdisi, Ussama Samir. Fantasies of the Possible: Community, History and Violence in the Nineteenth-Century Ottoman Empire .. Ph.D., Princeton University, 1997. [417 pages.]

Makdisi looks at periodic outbreaks of sectarian conflict in Mount Lebanon between 1840 and 1860 as manifestations of the rise of new nationalist ideologies in the Middle East. After first arguing that the 'traditional' social order of the Mountain was defined more by family rank than religion, he next suggests that local élites attempted to take advantage of European intervention to transform their society, advancing "opposing political claims

to represent Mount Lebanon on the basis of invented nationalist sectarian histories." However, this appeal to sectarianism permitted "subaltern mobilizations which presented alternative and subversive understandings of the definitions of reformed communal identities." His stated emphasis, then, is upon "the uncertainty of élite sectarian ideologies in the face of popular movements that transformed §knowledgeable' élite representations of community and history into far more 'ignorant' formulations." According to Makdisi, the religious violence during this period "represented attempts on the part of both Druzes and Maronites to create 'pure' and modern landscapes and communities."

Mala'ib, Nawwaf. آل بحتر التنوخيون في العهد الصليبي The Tanukhid house of Buhtur in the age of the Crusaders. Certificate in History, Faculty of Education, Lebanese University, Beirut, 1971.

Martelli, Dale Robert. Rural Rebels and Urban Nationalists in Syria and Palestine, 1920-1939: The Rebellions of Sultan al-Atrash and Shaykh Izz al-Din al-Qassam. M.A., Simon Fraser University, Burnaby (Canada), 1990. [161 pages.]

Martelli examines the roles of Sultan al-Atrash, in the Syrian Revolt of 1925, and Shaykh Izz al-Din al-Qassam, in the Arab Revolt of 1936, in an attempt to establish whether tradition or modern nationalism motivated either or both of these rebel leaders. Characterizing both uprisings as peasant revolts begun by rural leaders with the aim of expelling the French and British mandatory authorities from their respective countries, Martelli concludes that the rebellions and their leaders "represented the change and continuity of politics in Syria and Palestine, epitomizing the tension between tradition and modernization in the Arab Middle East."

Ozveren, Yasar Eyup. The Making and Unmaking of an Ottoman Port-City: Nineteenth Century Beirut, Its Hinterland, and the World-Economy. Ph.D., State University of New York at Binghamton, 1990. [282 pages.]

Ozveren focuses upon the rise of nineteenth-century Beirut in relation to its own hinterland and to the core areas of the global economy, devoting considerable attention to the role of all aspects of the global silk industry in this process. The importance of the silk industry, he argues, is that it "attests to the specificity of the peripheralization of the Lebanon under the impact of Beirut-based capital." Moreover, the incorporation of Beirut into the industry's global network provided Maronite Catholics with an ostensibly secular substitute for the religious bond they had traditionally enjoyed with France, much to the resentment of other Christian communities, as well as Muslims and Druze. After the first half of the nineteenth century, shifts in the global economy and in local interests led Beirut's merchants and intelligentsia to reconsider the city's relationship to the Mountain, to Syria and to Istanbul. Ozveren argues that this development and subsequent events provide evidence contradicting theories that the rise of a bourgeoisic necessarily leads to modernity and the formation of a nation-state.

Parsons, Laila H. The Druze in the Arab-Israeli Conflict, 1947-1949. Ph.D., University of Oxford, 1995.

According to Parsons, this dissertation offers the first detailed analysis of the 1947-1949 political and military alliance between Druze and Jews in Palestine. She begins with a summary of the history and religion of the Druze community up until the fall of the Ottoman Empire, focusing especially upon the significance of taqiyya in Druze political behaviour. The second chapter emphasizes the "neutral stance" of Palestinian Druze during

the Arab revolt of 1936-1939 and their earliest interaction with Zionist officials. In the four chapters that follow, Parsons details the increasing contacts between the Palestinian Druze and the Jews, commencing with the outbreak of civil war in November 1947, continuing through the Arab-Israeli war and ending with the armistice agreement signed in the summer of 1959 between Israel and her neighbouring states. She also makes passing references to the relationship between the Zionists and the Druze of Lebanon and Syria. Parsons argues that the military and political role played by the Druze on behalf of the Zionists was "significant."

Peled, Alom. Soldiers Apart: A Study of Ethnic Military Manpower Policies in Singapore, Israel and South Africa. Ph.D., Harvard University, 1994. [403 pages.]

Peled starts his investigation into how states devise and adjust their ethnic military manpower policies by arguing that they are fixed by national ideology. Consequently, he asserts, they evolve through a complex bargaining process between politicians, military officers and ethnic leaders, with each group pursuing its own agenda: politicians tend to suspect the loyalty of ethnic troops; officers are driven by the desire to improve combat performance; and ethnic leaders are interested in raising group status within the state. According to Peled, ethnic leaders are often successful in pressuring high-ranking members of the other two groups to change existing policies in their favour. In the section of his dissertation dealing with Israel, Peled focuses upon the integration of Druze conscripts into the Israeli army in the 1950s.

Peterson, Daniel Carl. Cosmogony and the Ten Separated Intellects in the 'Rahat al-'Aql' of Hamid al-Din al-Kirmani. Ph.D., University of California at Los Angeles, 1990. [609 pages.]

In comparing the philosophical systems of the Fatimid Isma'ili, Hamid al-Din al-Kirmani, and his non-Ismaili predecessor, Abu Nasr al-Farabi, Peterson attempts to explain why al-Kirmani deviated from the Farabian model to advocate creation ex nihilo. In doing so, he compares al-Kirmani's Rahat al-'aql with al-Farabi's al-Madina al-fadila, Plotinus' Enneads and the pseudepigraphic Theology of Aristotle, and also examines events in Egypt at the time of Caliph al-Hakim bi-Amrillah. Peterson considers al-Kirmani as

representative of one stage in the struggle for dominance between two opposing trains of thought that he terms the 'Platonic' and the 'Quranic.' Although it had originally rejected anthropomorphism, Ismailism later developed a sophisticated Neoplatonic doctrine to replacit previous gnostic ideology. The new doctrine was still anti-anthropomorphic, but implied divine-human interrelation and posed a theological problem to al-Kirmani due to the ontological, ethical and soteriological implications of the Neoplatonic chain of being and, especially, its relationship to subsequent claims for the divinity of al-Hakim. Peterson's study argues that, "by adopting a philosophical theology which simultaneously denied anthropomorphism and severed the Platonic linkage between the human and the divine, alKirmani not only perfected an Islamic via negativa but undercut the position of his ideological opponents in the formative Druze movement."

Qaidbey, Na'ila Taqiy al-Din. Druze Lebanon under the Last Mamluks. M.A., Department of History and Archaeology, American University of Beirut, 1981.

Richani, Nazi[h] F. Political Parties in Underdeveloped Countries: The Case of the Progressive Socialist Party of Lebanon, 1949-1978. Ph.D., George Washington University, Washington, DC, 1990. [233 pages.]

In studying the history of Lebanon's Progressive Socialist Party (PSP) from 1949 to 1978, Richani contends that Lebanon's dependent economic development affected the sectarian and class composition of the PSP and the party's political behaviour. His examination of official PSP records for the period under study and interviews with party leaders lead him to suggest that the party's social composition was influenced during six crucial periods, the most important being the civil war periods (1958 and 1975-1976) and the period immediately after the assassination of the party's founder, Kamal Junblat (1977). Noting that the socialist and reformist PSP tended to attract underprivileged Lebanese-including Muslims and, particularly, Druze-and that dependent development increased economic discrepancies and established a political system that perpetuated these differences, Richani argues that dependent development impeded national unity and interest aggregation. On the basis of this particular case-study, Richani broadens his conclusion to argue that "dependent development influences the social

composition and political behavior of Third World political parties" and that it also enhances the "ethnic, racial, religious and regional social cleavages" which govern the organization of such parties.

Strick, Betsy Rebecca. Ideology and Expressive Culture in the Druze Family. Ph.D., University of California at San Diego, 1990. [496pages.]

Strick's stated objective is to study the cultural variability of a Middle Eastern community, the Druze, and to explore the relationship between cultural beliefs, expressive forms and the family. She takes issue with researchers who have suggested that Druze family laws and religious doctrines favouring "the nuclear over the extended family" and emphasizing "women's involvement in religion" signify "an ideology of sexual

egalitarianism." By examining popular village belief to search for discrepancies between doctrine and practice, she finds that it generally conforms to traditional social practice. She also suggests that "there may be two systems of meaning regarding women and the family; one is associated with communal life and is widely known, and the other, associated with religious doctrine, is obscured by religious secrecy and is expressed to different degrees and through different customs in different villages and families." Finally, Strick posits that Druze asceticism may be a contributing factor to characteristic and established features of Druze belief and society.

Swayd, Samy S. [Swead Samy Shavit]. Lebanese Druze Identity: Change or Continuity? (1840s-1990s). Ph.D., University of California at Los Angeles, 1993. [240 pages.]

On the basis of primary sources. Swead attempts to establish a firm foundation of data concerning Druze origins, society, politics and literature before developing a conceptual framework for the analysis of group identity which includes ideological beliefs, cultural attributes and political attitudes. This is followed by an examination of the Druze version of their religious. social and political history during the sect's formative period (1017-1043). the Emirate period (1043-1840) and the civil war period (1840s-1860s and 1970s-1990s). After analyzing this history in terms of his conceptual framework, Swead concludes that, between the two periods of civil war, "Druze ideological beliefs have remained consistent and their scripturally-based cultural attributes have remained unchanged, whereas several of the circumstantially-based cultural attributes and all of their political attitudes have transformed or change substantially." Swead suggests that the Druze sense of identity has ideological belief and scriptually-based cultural aspects at its centre and that cultural attributes and political attitudes are respectively nearer to its periphery.
